Agriculture Censuses

BUSINESS DIVISION

John R. Wikoff, Chief

ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1972 Census of Retail Trade. Primary direction of the program was performed by Shirley Kallek, Associate Director for Economic Fields, and Melvin A. Hendry, Assistant Director for Economic and Agriculture Censuses.

This report was prepared in the Business Division under the general direction of John R. Wikoff, Chief. Michael G. Farrell, Assistant Chief for Census Programs, was responsible for the overall planning and management of the Division's census programs; he also coordinated activities with other divisions. Planning and implementing for this census and compiling this report were under the direction of Bobby E. Russell, Chief, Retail Census Branch, with primary staff assistance provided by John A. Dodds. Alvin H. Barten coordinated activities, specifications, and procedures with the other economic censuses. The computer programs were developed under the direction of George D. Minier, Chief, Census Programming Branch, assisted by William Wester. Paul Shapiro, Assistant Chief for Staff and Special Projects, provided staff assistance.

The mailing, collecting of data, and processing of administrative record information were conducted by the Economic Surveys Division under the direction of Roger Bugenhagen, Chief. Assistance was provided by Samuel Schweid, Andrew Grieco, Charles Venters, Shirley Roberts, Robert Viehman, Jerry McDonald, Joel Richardson, and Sandra Katis.

Forms design was performed in the Administrative Services Division, Henry J. Husmann, Chief. Gladys Potts, Joyce Teague, Helen Hindt, and Margaret Swinton made significant contributions.

Within the Publications Services Division, many individuals made significant contributions in the areas of publication planning and design, editorial review, composition, and printing procurement.

Clerical and data keying operations were performed in the Data Preparation Division at Jeffersonville, Indiana, under the direction of O.

Bryant Benton, Chief, who was assisted by Don L. Adams and Robert L. Allen.

The geographic coding procedures were developed in the Geography Division under the direction of Jacob Silver, Chief, assisted by Zigmund Decker, Terence McDowell, Silla Tomasi, Robert Hamill, David Christy, Kurt LeGait, and John Hawkins. Computer processing was directed by James R. Pepal, Chief, Computer Services Division. C. Thomas DiNenna, Jesse Verdeja, and Willie E. Clark provided staff assistance.

Donald Young of the Economic Census Staff participated in the overall planning and review of the census operations.

Special acknowledgment is also due the many businesses whose cooperation has contributed to the publication of these data.

The statistics presented in this volume incorporate the area and subject report series RC72-A and RC72-S.

INTRODUCTION

GENERAL BACKGROUND AND HISTORY

The economic censuses constitute comprehensive and periodic canvasses of the Nation's industrial and business activities. Taken by the Census Bureau, a part of the U.S. Department of Commerce's Social and Economic Statistics Administration, the censuses provide a detailed statistical profile of a large segment of the national economy.

The first economic census of the United States was conducted as part of the 1810 decennial census, when inquiries on manufacturing were included with the census of population. All other decennial censuses through 1900, except in 1830, contained questions on manufacturing. In 1904 the quinquennial census of manufacturing was begun. This census was conducted every 5 years until 1920 and every second year from 1921 to 1939.

Although limited distributive trade data were collected in the decennial census of 1840, the first census of business was taken in 1929. This included only retail and wholesale trades, but beginning with the second business census in 1933 and in succeeding censuses, various services also have been included. Business censuses were subsequently taken for 1935 and 1939 and, after a wartime interruption, resumed in 1948. Beginning in 1954, and continuing in the censuses of 1958, 1963, and 1967, the business census has been conducted concurrently with the censuses of manufactures and mineral industries. Beginning with the 1967 censuses, Congress authorized the economic censuses to be taken at 5-year intervals covering years end in "2" and "7."

PURPOSE AND USES

The economic censuses are the primary source of facts about the structure and functioning of the economy and, therefore, provide information essential for both government and business. These censuses furnish an important part of the framework for such composite measures as the national accounts. In forecasting and planning, it is especially useful to analyze the national product in terms of the transactions that determine its size and composition. The economic censuses also provide weights and serve as benchmarks for indexes of industrial production, productivity, and price, all of which are essential for understanding current economic developments.

There is widespread use of the economic censuses by manufacturers and distributors who need to establish measures of their potential markets in terms of areas, kinds of businesses, and kinds of products; and by management in various industries and trades which need facts for purposes of economic or sales forecasting, analysis of sales performance, layout of sales territories, allocation of advertising budgets, and location of plants, warehouses, and stores. For these

business purposes, census facts are invaluable. Census statistics also provide insight into changes in the structure of industry, information needed by trade organizations. The geographic detail describing the patterns of economic change in individual communities is valuable to State and local governments as well as to other local business organizations and research groups.

Following every census, reports are purchased by thousands of businesses and other users; likewise, census facts are widely disseminated by trade associations, business journals, and the daily press. Volumes containing census statistics are available in most major public and college libraries. Descriptions of the various publications from the 1972 Census of Retail Trade may be found at the end of this report.

AUTHORITY AND SCOPE

The economic censuses are required by law under Title 13 of the United States Code, sections 131, 191, and 224, which direct that they be taken at 5-year intervals. The 1972 Economic Censuses covered manufacturing; mining and quarrying; construction industries; retail trade; wholesale trade; selected service industries (including hotels and motels; personal, business, repair, and automotive services; amusement and recreation services, including the motion picture industry; dental laboratories; legal services; and architectural and engineering services); arrangement of passenger transportation (including travel agencies); truck and bus carriers not subject to economic regulation by the Interstate Commerce Commission; and public warehousing.

CENSUS OF RETAIL TRADE

The 1972 Census of Retail Trade, part of the 1972 Economic Censuses, covered "retail trade" as defined in the Standard Industrial Classification (SIC) Manual.¹ It includes all establishments primarily engaged in selling merchandise for personal or household consumption, and rendering services incidental to the sale of the goods. In this report liquor stores operated by State and local governments also have been included in retail trade statistics; however, data for post exchanges, ship stores, and similar establishments operated on military posts by agencies of the Federal Government, are not included. The basic tabulations in this and other retail trade reports do not include data for central administrative offices (CAO's), captive warehouses, and other units which service or are auxiliary to retail establishments within the same organizations. Data for such establishments appear separately, however, in chapter 3, table 9, of this report. See the

¹Executive Office of the President, Office of Management and Budget, *Standard Industrial Classification Manual*, 1972.

INTRODUCTION—Continued

"Kind-of-Business Classifications" section of appendix A for definitions of the kind-of-business categories for which data are shown in this report.

CENSUS DISCLOSURE RULES

In accordance with Federal law governing census reports, any data which would disclose the operations of an individual establishment or business organization are not published. However, the number of establishments in a kind of business is not considered a disclosure; therefore, this item may appear in instances where other items of information for the same kind of business or locality are withheld.

TYPE OF AREAS COVERED

This report presents specialized data for selected kinds of business in selected geographic areas.

Volume II, Retail Trade—Area Statistics, presents data by kind of business for the following areas:

1. The State as a whole;
2. Each standard metropolitan statistical area;
3. The area within the State outside standard metropolitan statistical areas;
4. Each county;
5. Each "city" of 2,500 inhabitants or more. The term "city," for purposes of these reports, includes places having 2,500 inhabitants or more in the 1970 Census of Population and which were incorporated as cities, boroughs, villages, or towns. It does not include towns in New England, New York, and Wisconsin which are not considered "incorporated places" for Census Bureau purposes; and
6. The areas not classified as incorporated places shown below.
 - a. Towns in the New England States which had an urban population based on the 1970 Census of Population definitions, of 2,500 inhabitants or more, or which had a total population of 10,000 or more;
 - b. Townships in New Jersey and Pennsylvania which had 10,000 inhabitants or more; and
 - c. All other unincorporated places, based on 1970 Census of Population definitions, which had 25,000 inhabitants or more.

The standard metropolitan statistical areas for which data are shown are those defined by the Office of Management and Budget. A standard metropolitan statistical area (SMSA) is a county, or group of contiguous counties (except in New England), which contains at least one central city of 50,000 inhabitants or more, or twin cities with a combined population

of at least 50,000. In addition to the county or counties containing such a city or cities, contiguous counties are included in an SMSA if, according to certain criteria, they are essentially metropolitan in character and are socially and economically integrated with the central city. In New England, towns and cities, rather than counties, are the units used in defining an SMSA.

In addition to the above areas, the series of reports for "Major Retail Centers" presents retail data for the central business districts (CBD's) of cities which have a population of 100,000 inhabitants or more and for major retail centers (other than CBD's) located in SMSA's.

GENERAL DESCRIPTION OF THE CENSUS

For the 1972 Census of Retail Trade, large and medium size firms, plus all firms known to operate more than one establishment, were sent questionnaires to be completed and returned to the Census Bureau by mail. For most very small firms, including those with no paid employees, data from existing records of the Internal Revenue Service and the Social Security Administration were used in lieu of direct collection by the Bureau. Basic information concerning location, kind of business, volume of sales and payrolls, and number of employees, was thus obtained for all firms by means of this combination of sources. In addition, the firms that were sent questionnaires were asked specific additional questions tailored to the particular kind of business.

Appendix A gives a more detailed explanation of census coverage and methodology.

CORRECTIONS TO DATA

Some of the data in this report comprise the statistical portions of previously published reports (Series RC72-A). Corrections made after the final publications were issued have been carried to specific areas in this report only if they significantly affect the data for such areas. As a result, the detail in some tables may not add to totals.

SPECIAL TABULATIONS

Special tabulations of data collected in the 1972 Census of Retail Trade may be obtained on computer tape, on punch cards, or in tabular form. The data provided in such special tabulations will be in summary form and will be subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual business establishments or companies) as are the regular publications.

Special tabulations are prepared on a cost basis and the request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to: Chief, Business Division, Bureau of the Census, Washington, D.C. 20233.

TABLE 8. Kind of Business of Main Store—United States: 1972

(Data include only leased departments (concessions) reported by main store which had some paid employment during 1972; however, a measure of nonreporters is not available. Retail businesses reporting were asked "Were any departments or concessions, not owned by you, operated within this establishment during 1972?" They were further instructed to answer "Yes" to this question: (1) if any department operated by a firm other than your own is normally considered by customers to be a part of your establishment or if you bill customers for sales of such departments or (2) any department is operated by a subsidiary company of your or of your parent company.")

TABLE 8. Kind of Business of Main Store—United States: 1972—Continued

(Data include only leased departments (concessions) reported by main store which had some paid employment during 1972; however, a measure of nonreporters is not available. Retail businesses reporting were asked "Were any departments or concessions, not owned by you, operated within this establishment during 1972?" They were further instructed to answer "Yes" to this question: (1) if any department operated by a firm other than your own is normally considered by customers to be a part of your establishment or if you bill customers for sales of such departments or (2) any department is operated by a subsidiary company of your or of your parent company.")

Appendixes

APPENDIX A. General Explanation

CENSUS COVERAGE AND METHODOLOGY

Structure and Method of Enumeration of the 1972 Census of Retail Trade Universe—Firms in the 1972 Census of Retail Trade were divided into two categories—the “mail universe” and the “nonmail universe.” The coverage of each component and the method of obtaining census information from each group are described below.

1. *The “Nonmail Universe”*—This group consists of firms which were not required to file a regular census return and includes the following categories:

a. *All “nonemployers”*—This category consists of all firms with no paid employees during 1972. Sales information for these firms was obtained from 1972 Federal income tax records. Although consisting of a large number of firms, the nonemployer segment accounts for less than 5 percent of total retail sales.

The census included only those retail nonemployer firms which reported a sales volume of \$2,500 or more during 1972 plus firms in operation for less than the full year which reported sales that, if projected to an annual basis, would have reached a total of \$2,500 or more. This treatment is the same as in the 1967 census.

b. *Selected “small employers”*—“Employers” consist of all business firms with paid employees as shown in the active records of the Internal Revenue Service (IRS) which were subject to payment of Federal Insurance Contribution Act (FICA) taxes. “Small employers” consist basically of all those single establishment firms with payroll below a specified cutoff. Although the cutoff varied by kind of business, this segment generally included firms with one to three employees and represented about 10 percent of total retail sales.

Data on sales, payroll, and employment for “under cutoff” employer firms were obtained from the records of the Internal Revenue Service (IRS) and the Social Security Administration (SSA), except for a 10-percent sample of these which were included in the “mail universe.”

2. *The “Mail Universe”*—Information for firms in this group was obtained basically by means of a mail canvass. The “mail universe” includes the following categories:

a. *“Large employers”*—This category comprises all “employer” firms above the size cutoff referred to in section 1b above. Within this category, a pre-census mail canvass operation was conducted in order to identify firms which operated establishments at more than one location and to obtain information on mid-March 1972 employment at each location for use as a coverage check in the census. Firms included in the pre-census mailing

were drawn primarily from 1967 census records of multiunit firms and other large employers.

b. *Sample of “small employers”*—This category included the 10-percent sample of “small employer” firms referred to in section 1b above.

Method of Classifying Kinds of Business—The retail trade classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual.¹ However, the method of assigning these classifications, and the level of detail at which establishments were classified, differed as follows:

1. *The “Nonmail Universe”*:

a. *All “nonemployers”*—Nonemployer firms were classified on the basis of information supplied on the Federal income tax returns. The nonemployer firms were coded in less detail than employer firms. Therefore, the combined data for all establishments (nonemployer firms plus establishments of employer firms) are presented in less kind-of-business detail than data for employer establishments alone.

b. *Selected “small employers”*—The 1972 census classification for the “small employer” firms which were not mailed a census report form (see section 1b above) was based on the 1967 census kind-of-business classification. If the firm was not in business in 1967, the SSA classification was used. If the SSA classification was not available, or was inadequate for coding, the IRS classification based on the firm’s description of its principal business activity as entered on its IRS business tax return was used.

If the previous Census, SSA, and IRS classifications all proved inadequate (i.e., none corresponded to a 1972 census classification in the detail required for employers), the firm was sent a brief inquiry requesting information necessary in order to assign a 1972 census kind-of-business code.

2. *The “Mail Universe”*—The 1972 census classification for establishments in the “mail universe” (section 2 above) was assigned on the basis of answers to questions on sales by merchandise lines and other special inquiries.

Comparability of the 1967 and 1972 Censuses—The 1967 and 1972 censuses were conducted under similar conditions and procedures. However, strict comparability of the data for the two censuses is limited by the following factors:

1. *Classification*—In both 1967 and 1972, classifications were based on the Standard Industrial Classification (SIC)

¹ Executive Office of the President, Office of Management and Budget, *Standard Industrial Classification Manual*, 1972.

APPENDIX A—Continued

Manual; however, there were major revisions to the SIC structure in 1972 which limit the comparability of data for these two censuses. The kinds of business involving the most significant changes are those in the building materials, hardware, and farm equipment dealers (SIC Major Group 52). These changes are described in detail in the "Kind-of-Business Classifications" section below.

It was not possible to retabulate 1967 data based on the revised 1972 classifications for comparative purposes, since in many cases the necessary information was not available for assigning the new 1972 classifications to the 1967 records. However, 1972 census records were assigned both a 1972 and a 1967 census classification. The 1972 census data are presented based on the 1972 classifications for all tables in this report. However, in Retail Trade Volume II, *Area Statistics*, 1972 data for the United States as a whole, each State, and standard metropolitan statistical areas are presented based on the 1967 classifications to show the impact of reclassifications.

2. *Areas*—The boundaries of a number of SMSA's for which data are shown in this report are not the same as in the 1967 census because of redefinitions which occurred since 1967. SMSA titles and definitions used in the 1972 census publications are listed in appendix F.
3. *Legal Form of Organization*—In 1967 the legal form of organization was determined for establishments in the "mail universe" on the basis of the response to the "legal form of organization" inquiry on the census forms. The legal form of organization of "nonmail" establishments was generally based on the type of IRS business income tax return form filed (e.g., businesses filing a partnership Federal tax return Form 1065 were assumed to be a partnership).

In the 1972 census, the legal form of organization was based on data reported directly in the censuses only for establishments of large multiestablishment companies (those with total company employment of 250 persons or more). A company summary report, submitted by these large firms, included an inquiry on legal form of organization. The legal form of organization of all other establishments was generally based on the type of IRS business income tax return form filed.

In the 1967 census, "small employers" in the "nonmail universe" were assumed to be sole proprietorships if no IRS business tax return was located in the IRS files. In the 1972 censuses, since the legal form of organization of most large and small establishments was based on the type of IRS form, no such assumption was made. Consequently, it was necessary to establish a classification covering establishments for which the legal form of organization was unknown. This classification includes establishments of organ-

izations not required to file IRS business tax returns (e.g., certain nonprofit organizations) plus proprietorships, partnerships, and corporations for which a 1972 tax return could not be located in the IRS file, and for which identification of the type of tax return required was not available from IRS records from previous years.¹

This report presents data by the following legal form of organization categories:

- a. Individual proprietorships
- b. Partnerships
- c. Corporations (including non-tax-exempt cooperatives)
- d. Other legal form, or legal form unknown (for appropriate kind-of-business classifications, tax-exempt cooperatives and government operated liquor stores, normally included in this classification, are presented separately).

EXPLANATION OF TERMS

Capital Expenditures—Capital expenditures includes all costs actually incurred during 1972 which were chargeable to the fixed assets accounts of the firm, including expenditures for facilities under construction at the end of 1972. Included were all expenditures (whether on contract or by employees of the firm) for new or used structures, fixtures, and equipment, and for improvements, reconditioning, modifications, and additions to existing facilities, which were subject to depreciation on the Federal income tax report. Excluded were expenditures for land and charges for repairs, supplies, and other items chargeable as current operating expenses. In the case of motor vehicles or other expenditures for both personal and business use, only that portion allocated to the business is included. Expenditures by firms which went out of business in 1972 are omitted from this report, but expenditures in 1972 by firms opening for business in 1973 are included (see "Sample Design" above).

The statistics in this report are limited to the capital expenditures of the operators of the establishments surveyed and exclude expenditures by owners of these properties leasing or renting the property to others. Thus, expenditures at retail establishments by real estate firms are omitted. Also excluded are expenditures by oil companies for gasoline service stations operated only by lessees during 1972 or, for service stations under construction at the end of 1972, scheduled to be leased to others upon completion of construction. For firms reporting on an organizational basis (see "Sample Design" above), this survey covers expenditures by the firm for structures which on completion had been or were to be sold and leased back.

Central Administrative Offices and Auxiliaries—Each company included in this census was asked to identify and report sepa-

APPENDIX A—Continued

ately as "central administrative offices" or "auxiliaries" those locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data for such central administrative offices and auxiliaries which primarily service retail establishments are presented in table 9 of this report.

Employment Size—See "Explanation of Tables" (Section 1b).

Establishments—An establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the company or enterprise which may consist of one or more establishments. Separate information was obtained for each location where business was conducted. The count of establishments in this report represents the number in business at the end of the year.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. In those cases, however, where distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and where conditions prescribed by the SIC manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were obtained in the census.

In the case of leased departments (separately owned businesses operated as departments or concessions of retail business under another ownership, such as a separately owned shoe department in a department store), only a single establishment combining leased departments with the main retail establishment in which they are located is recognized for census purposes. It should be noted, however, that in the case of the "nonmail universe," for which information is obtained from IRS and SSA sources, it is generally not possible to differentiate between leased departments and separate establishments. Also, leased retail departments located in other than retail establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

Firms—A firm is a business organization consisting of one or more (domestic) establishments under common ownership or control. All establishments of subsidiary firms are included as part of the owning or controlling firm. For economic census purposes, the terms "firm" and "company" are synonymous.

Fixed Assets—Fixed assets are the gross value (acquisition cost) of all assets for which depreciation and amortization accounts are ordinarily maintained. Included were all improvements and new construction that were "in progress" but not

yet completed at the end of 1972. Also included was the value of machinery and equipment owned by the retail establishments but leased or rented to other firms.

Excluded are land depletable assets (timber, mineral rights, etc.) and nonfixed assets (inventories, cash, accounts receivable, etc.). Also excluded from the value of assets are all intangible assets such as good will, patents, or copyrights.

Legal Form of Organization—See "Legal Form of Organization" (section 3) under "Comparability of the 1967 and 1972 Censuses."

Paid Employees for the Pay Period Including March 12, 1972—Paid employees consists of the number of employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12, 1972. Included are employees on paid sick leave, paid holidays, and paid vacations. Proprietors and partners of unincorporated businesses are not included. The definition of paid employees is the same as used in reporting on IRS Form 941.

Payroll, Entire Year—Payroll includes all forms of compensation, such as salaries, wages, commissions, bonuses, vacation allowances, sick leave pay, and the value of payments in kind (such as free meals and lodgings) paid during the year to all employees. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit nor other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service for purposes of reporting on Form 941.

Payroll for the First Quarter of 1972—This item consists of payroll, as defined above, paid to persons employed at any time during the January to March 1972 quarter.

Rental Payments—All payments for lease or rental of buildings and equipment for use in retail activities are included in this item. Machinery and equipment includes rental payments for the use of production machinery, office equipment, computer systems, passenger cars, trucks, materials handling equipment and all other types of machinery or equipment.

Excluded are separately identified fees for lease or rental of land, such as ground rents.

Sales—Sales include merchandise sold, receipts from repairs and other services to customers, delivery, and carrying charges, whether or not payment was received in 1972. Sales are net after deductions for refunds and allowances for merchandise

APPENDIX A—Continued

returned by customers. Trade-in allowances are not deducted from total sales. Sales also include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State, or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes, which are paid by the manufacturer or wholesaler and passed along to the retailer are also included. Total sales do not include non-operating income from such sources as investments, rental of real estate, etc.

Sales in this report do not include retail sales made by manufacturers, wholesalers, service establishments, nor other businesses whose primary activity is other than retail trade. They do, however, include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, and sales to other retailers) by establishments primarily engaged in retail trade.

Although the count of establishments in this report represents the number in business at the end of the year, the sales figures include sales of all establishments in business at any time during the year.

Sales Size—See “Explanation of Tables” (sections 1a and 2b.)

Single Units and Multiunits—See “Explanation of Tables” (section 2a).

Supplemental Labor Costs—Legally required expenditures include payments for all programs required by Federal and State legislation, such as payments under the Federal Insurance Contribution Act (FICA), unemployment compensation, workmen’s compensation, and State temporary disability payments.

Payments for voluntary programs include all programs not specifically required by Federal or State legislation, whether initiated by the employer or established as a result of a collective bargaining contract. For programs financed jointly by employer and employee contributions, only the employer payments for (1) insurance premiums on hospital and medical plans, (2) life insurance premiums, and (3) premiums on supplementary accident and sickness insurance are included. In reporting payments for insurance, net payments are reported, i.e., gross payments less any offsetting dividends, refunds, or other reductions in premiums.

Also included are payments or allocations on (1) all pension plans regardless of method of administration, (2) supplemental unemployment compensation plans, (3) welfare plans, (4) stock purchase plans in which the employer payment is not subject to withholding tax, and (5) deferred profit-sharing plans.

EXPLANATION FOR CHAPTER 1

This chapter represents a recompilation of data collected in the 1972 Census of Retail Trade and is divided into three categories: Size of establishment, size of firm, and legal form or organization.

SIZE OF ESTABLISHMENT

Only establishments which operated the entire year have been classified into the various size groupings used in the establishment size tables (tables 1a and 1b). An establishment is classified as “operated entire year” if it operated 10 months or more during the year and was in operation at the end of the year. Seasonal establishments, which normally operate for only a part of the year, are treated as “entire year” or “not entire year” on the basis of the length of time that the establishment was owned rather than the length of time it was open for business during the census year.

Sales size—Data in table 1a are classified into 11 sales-size groups depending on the value of sales and other receipts reported for the year 1972. As the class intervals in this table indicate, establishments were classified by sales-size groups after the reported sales and receipts figures had been rounded to the nearest thousand dollars.

Employment size—Data in table 1b are classified into 13 employment-size groups depending on the number of employees on the payroll during the pay period including March 12, 1972. Proprietors and unpaid family workers were not regarded as employees in determining the employment size of an establishment.

SIZE OF FIRM

A firm may be either a single-establishment firm (single unit) or a multiestablishment firm (multiunit). In 1967, the only firm-size data published were the “Single Units and Multiunits” data, included as part of the 1967 Census of Business, *Volume I, Retail Trade, Subject Reports*. Firm-size groups were based on aggregate data for all establishments operated by the same firm in the same general kinds of business. For the purpose of the single unit/multiunit size classifications, special groupings of the same general kinds of business were established. The resulting firm-size classification was retained at all summary levels.

For 1972, firm-size groups are based on aggregate data for all establishments operated by the same firm in the kind-of-business classification, group, or total for which data are presented. For example, a firm operates three retail establishments: A department store (SIC 531), a variety store (SIC 533), and grocery store (SIC 541). At the most detailed level of

APPENDIX A—Continued

classification, each of the establishments is a single unit operated by a multiestablishment firm. At the general merchandise group level (SIC 53), it is a 2-establishment multiunit. For retail trade total, it is a 3-establishment multiunit. In 1972, data are presented based on sales size of firm and on concentration by major firms as well as for single units and multiunits (by number of establishments operated).

Single Units and Multiunits—Data in table 2a are classified into 10 firm-size groups based on the number of establishments operated December 31, 1972. A single unit is a firm with only one establishment engaged in economic activities. A multiunit, or a multiestablishment firm, is a firm with two establishments or more engaged in economic activities. A multiestablishment firm may, however, operate only one establishment classified in retail trade.

Sales Size—Data in table 2b are classified into 10 sales-size groups depending on the value of sales and other receipts reported for the year 1972. As the class intervals in this table indicate, firms were classified by sales-size groups after the reported sales and receipts figures had been rounded to the nearest thousand dollars for individual establishments

Concentration of Major Firms—Data in table 2c are presented separately for the 4, 8, 20, and 50 largest firms based on total sales.

LEGAL FORM OF ORGANIZATION

Data in table 3 represent a summary for individual establishments rather than firms. In this regard, this table is similar to tables 1a and 1b. For an explanation of the method used to assign "legal form," see paragraph 3 under "Comparability of the 1967 and 1972 Censuses."

EXPLANATION FOR CHAPTER 2

INTRODUCTION

The data presented in this chapter were not obtained from the basic census questionnaires but were derived from supplementary questions included on the 1972 Annual Retail Trade Survey (ARTS) report form. The annual retail trade survey was based on the probability sample used to produce national monthly estimates of retail sales published in the Monthly Retail Trade report. Descriptions of the survey methodology, sample design, and estimating procedures follow.

SURVEY METHODOLOGY

The 1972 statistics are summarized by kind-of-business classifications based on the 1967 Standard Industrial Classification (SIC) Manual.¹ However, the basis for assigning these classifications differed by sample component. In general the kind of business classification codes used in the 1972 Annual Retail Trade Survey were derived from the records used to select the sample. As such they may not necessarily reflect the actual 1972 activity of the establishments. Note that data in this chapter are not directly comparable with data presented in other reports (or other chapters of this report) from the 1972 Census of Retail Trade. For companies operating establishments in more than one industry division (e.g., retail trade and selected services), separate figures were obtained covering retail establishments only. This approach differs from the procedures followed in compiling quarterly data on capital expenditures by the Bureau of Economic Analysis (BEA), Department of Commerce. BEA's series is based on the classification of the principal activity of the company as a whole; one report filed covers all establishments of the firm, whether or not classified in the same kind-of-business or industry division.

Similar data were collected for 1968 and are included in this report where appropriate. They were not published previously.

SAMPLE DESIGN

Data on capital expenditures were derived from the 1972 Annual Retail Trade Survey, which was essentially based on the probability sample used after July 1971 to produce national monthly estimates of retail sales published in the Monthly Retail Trade report. A detailed description of the sample is given in the monthly report. The 1972 annual sample consisted of the following components:

Group II Organizations—These are firms which in the 1967 Census of Business were reported as operating 11 retail stores or more in the United States. They are included in the sample regardless of their location in the United States. For the annual survey, they were requested to include all retail stores of their subsidiaries; for the monthly survey, a sample was selected for separate reporting by subsidiaries assigned separate employer identification (EI) numbers, as described below for Group I firms.

Group I Organizations—These retailers come from either a "list" or an "area" sample.

A "list sample" is selected from the retail employers who make Social Security payments for their employees under the Federal Insurance Contribution Act (FICA). The major part of this sample is drawn from the County Business Patterns (CBP)

APPENDIX A—Continued

tabulation (taken yearly of first-quarter taxable payrolls reported by FICA tax-payers) using kind-of-business codes derived from the quinquennial economic censuses. New retail employers not included in the CBP tabulation fall into the rest of the sample drawn from employer births provided by the Social Security Administration. The basic sampling unit is the EI number assigned to each employer.

Firms in the sample are listed on panels: Very large businesses selected with certainty are placed on a fixed panel, other large businesses on a monthly noncertainty panel, and the rest on rotating panels. The firms listed on the rotating panels report the current and previous month's data three times a year; the fixed-panel firms report each month. The firms on the fixed panels and firms on two of the four rotating panels were selected to participate in the annual retail trade survey.

The retailers not in the list sample are represented by business establishments found in a probability sample of land segments. Selection of this "area sample" is two-stage. First, a sample of 58 primary sampling units (single counties or small groups of contiguous counties) was drawn: The 10 largest PSU's were selected with certainty, and 48 noncertainty PSU's were selected with probability proportionate to (1960 population) size. In the second stage, each selected primary sampling unit (PSU) was subdivided into small land segments containing at the time of selection an average of four to six retail stores each. A subsample of these land segments was drawn in each PSU at an overall rate of 1 in 1,000 (1 in 2,000 or 1 in 3,000 in the smallest PSU's, i.e., those with the largest weights). About 420 such land segments are included in the sample each month.

Each retail establishment in these selected land segments is canvassed to determine whether the business has had a chance of being selected in the list sample. If it has no EI number or if its EI number fails to match the list sample universe, it is tabulated in the area sample. The area sample thus includes businesses without employees, and employers, mainly recent births, not represented in the list sample.

The area sample is allocated evenly to 12 rotating monthly panels. In each sample segment, retail firms not previously subjected to list sampling are asked to report current and previous-month data once a year (except repeat segments, which report up to three times a year). Firms in 2 of the 12 panels are selected to participate in the annual retail trade survey. Kind-of-business codes were assigned based on classification information obtained during the area canvass in 1973.

RELIABILITY OF THE DATA

The sample used in this survey is one of a large number of all possible samples of the same size that could have been selected using the same sample design. Each sample could produce a different estimate, but the average would be

expected to agree with the results that would be obtained from a complete enumeration of retail stores using the same procedures. The standard error of the survey estimate is a measure of the variation among the estimates from all possible samples of the same design. The standard error is mathematically estimated from random groups within the sample and is a measure of the precision with which this particular sample estimate approximates the average result of all possible such samples. Since the sampling error estimates are estimated from a sample, they too are subject to sampling variability.

Tables 9, 10, and 11 show coefficients of variation, which are defined as the standard error of the estimate expressed as a percentage of the estimate. Measures of sampling variability have not been computed for year-to-year ratios of retail store estimates but, in general, would be expected to be less than those shown for the dollar volume estimates.

The sample estimates and estimates of coefficients of variation permit us to construct interval estimates with prescribed confidence that the interval includes the average result of all possible samples. The chances are about two out of three that the amounts estimated in this survey would differ from the results that would be obtained from a complete census using the same enumeration procedures by less than the coefficients of variation percentages shown.

1967 CLASSIFICATIONS

The major kinds of business represented in the 1972 Annual Retail Trade Survey do not strictly correspond with those covered in the 1972 census of retail trade, because census classifications follow the 1972 edition of the Standard Industrial Classification Manual whereas the annual retail trade survey classification follows the 1967 edition.

Following are the 1967 descriptions of those kinds of business for which data are provided.

Building Materials, Hardware, and Farm Equipment Group (SIC Major Group 52)

This major group includes establishments primarily selling lumber, building materials, the basic lines of hardware, paint, wallpaper, glass, electrical supplies, roofing materials, and other equipment and supplies for all types of construction. Establishments primarily selling farm equipment are also included. Establishments in this group sell to contractors as well as to the general public. Establishments in this group which do not deal in lumber or millwork are classified as retail trade if sales to the general public equal 15 percent or more of total sales and sales to the general public and contractors combined equal 50 percent or more of total sales; otherwise they are classified as wholesale trade.

Establishments which deal in lumber as well as other building materials, whose reported sales of lumber and

APPENDIX A—Continued

millwork are 1 percent or more of their total sales and whose sales to the general public amounted to 1 percent or more of total sales, are classified as retail if their sales to the general public and to contractors combined equal 50 percent or more of total sales.

General Merchandise Group Stores (SIC Major Group 53, Including "Nonstore Retailers")

This group includes all establishments within SIC Major Group 53, "General Merchandise." This major group includes establishments which sell several lines of merchandise such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. Also included are such nonstore retailers as mail-order houses, merchandise vending machine operators and direct selling (house-to-house) organizations.

Department Stores (SIC 531)—Establishments normally employing 25 people or more, having sales of apparel and softgoods combined amounting to 20 percent or more of total sales, and engaged in selling each of the following lines of merchandise:

1. *Furniture, home furnishings, appliances, radio and TV sets.*
2. *A general line of apparel for the family.*
3. *Household linens and dry goods.*

An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the merchandise lines described above exceeds the maximum percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC Major Group 56).

Variety Stores (SIC 533)—Establishments primarily selling a variety of merchandise in the low and popular price ranges such as stationery, apparel and accessories, housewares, toys, toilet articles, hardware, and confectionery. These establishments frequently are known as "5 and 10 cent" stores and "5 cents to a dollar" stores, although merchandise is usually sold outside these price ranges.

Food Group (SIC Major Group 54)

Establishments primarily selling food for home preparation and consumption. Establishments primarily selling prepared food and drinks for consumption on their own premises are classified as "Eating and Drinking Places" (SIC major group 58) and stores primarily engaged in selling packaged beers and liquors are classified separately as "Liquor stores" (SIC 592).

Grocery Stores (SIC 541)—Establishments primarily selling (1) a wide variety of canned or frozen foods such as vegetables, fruits, and soups; (2) dry groceries, either packaged or in bulk, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour and crackers; (3) other processed food and nonedible grocery items. In addition these establishments often sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats.

Establishments commonly known as supermarkets, food stores, and delicatessens are included in this classification if receipts from sales of groceries and food items for off-premise preparation and consumption are 50 percent or more of total sales.

Automotive Group (SIC Major Group 55, Except 554)

This group includes establishments which sell new and used automobiles and new parts and accessories, aircraft and marine dealers, and mobile home dealers. Establishments dealing exclusively in used parts are classified in SIC 5933, "Secondhand stores." Automotive distributors whose sales are primarily to dealers, and establishments primarily engaged in selling trucks and motorized industrial equipment are included in wholesale trade.

Gasoline Service Stations (SIC 554)

Establishments primarily selling gasoline and automotive lubricants. Usually these establishments also sell tires, batteries, and accessories, and perform minor repair work and services. Establishments called garages but deriving more than half of their receipts from the sale of gasoline and oil are included.

Furniture and Appliance Group (SIC Major Group 57)

Establishments primarily selling merchandise used in furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances, including radio and TV sets. Also included are musical instrument stores and music and record shops.

Eating and Drinking Places (SIC Major Group 58)

This major group includes establishments primarily selling prepared foods and drinks for consumption on or near the premises; and lunch counters and refreshment stands selling prepared foods and drinks for immediate or "take-home" consumption. Also included are caterers who sell prepared foods which are served elsewhere than at their place of business and in-plant food contractors. Eating and drinking

APPENDIX A—Continued

places operated as leased concessions in theaters, hotels, motels, and places of amusement are included here. Candy and popcorn stands located in theaters are, however, included in SIC 54 as "Food Stores."

Eating Places (SIC 5812)—Comprises the following industries:

1. *Restaurants, Lunchrooms, Caterers*—Establishments primarily selling prepared food and drink for consumption either on the premises or at a place designated by the customer. Establishments calling themselves caterers but not selling prepared foods as part of their business activity are not included in this category.

Establishments in which sales of alcoholic beverages for consumption on the premises exceed receipts from sales of prepared foods and nonalcoholic beverages are classified as "Drinking places" (SIC 5813). Counter or table service may be provided at establishments calling themselves restaurants or lunchrooms.

2. *Cafeteria*—Establishments primarily selling prepared foods and drinks for consumption on the premises. In these establishments the customers serve themselves.
3. *Refreshment Places*—Establishments primarily selling limited lines of refreshments and prepared food items. Included in this group are establishments which prepare refreshment items such as frozen custard, pizza, barbecued chicken, and hamburgers for consumption either on or near the premises or for "take-home" consumption.

Durable Goods Stores and Nondurable Goods Stores

Durable goods stores include all retail stores in the following major groups: furniture; building materials, hardware, and farm equipment; and automotive. Also included in the durable goods category are jewelry stores; book stores; sporting goods stores; bicycle shops; secondhand stores; luggage and leather goods stores; gift, novelty, and souvenir shops; typewriter stores; optical goods stores; antique stores; camera and photographic supply stores; and miscellaneous retail stores not elsewhere classified.

Nondurable goods stores include all retail stores in the following major groups: food; eating and drinking; general merchandise; apparel; and gasoline service station. Also included in the nondurable goods category are liquor stores; drug and proprietary stores; fuel and fuel oil dealers; florists; hay, grain, and feed stores; farm and garden supply stores; stationery stores; newsstands and newsdealers; cigar stores; and ice dealers.

Shopping Goods Stores (GAF)

GAF stores include all stores in general merchandise (SIC 53), apparel (SIC 56), and furniture and appliance (SIC 57) groups: these stores specialize in department store types of merchandise.

EXPLANATION FOR CHAPTER 3

Census reports include the answers to two distinctly different types of inquiries: "basic" and "special." Basic (or general) inquiries, which included location, kind of business, sales, payroll, and number of employees, were available for all establishments from a combination of sources. (See "General Description of the Census" in the Introduction.) Special inquiries, tailored to the particular kinds of business covered by the report, were available only from establishments in the "mail universe" which completed the appropriate inquiries on the questionnaire.

Data for special inquiries in this chapter have been expanded in most tables to account for establishments which did not respond to the particular inquiry for which data are presented. Unless otherwise noted in the specific table, data for these special inquiries have been expanded in direct relationship to total sales; i.e., it is assumed that the characteristics of establishments not responding to the particular special inquiry are the same as establishments with equal sales in the same category (publication table line) which did respond to the inquiry.

All tables in which data are expanded to account for nonrespondents include a "coverage" indicator for each publication category which shows the sales of establishments responding to the special inquiry as a percent of total sales of all establishments for which data are shown. Unless otherwise noted in the specific table, data are shown in this chapter only for categories for which the "coverage," or level of response, was 60 percent or higher, i.e., for which total sales of establishments responding to the inquiry equalled or exceeded 60 percent of total sales of all establishments in the category.

EXPLANATION FOR CHAPTER 4

INTRODUCTION

An individual establishment (i.e., business location) is the unit to which a single kind-of-business classification is assigned and for which data are summarized in the case of most retail census tabulations. The resultant kind-of-business statistics do not reveal the merchandise line composition of retail sales and, accordingly, do not meet many important data needs of manufacturers, wholesalers and other distributors, the Government, business analysts, or retailers themselves.

In order to meet some of these needs, sales by merchandise line were collected in the census and are presented in this report in terms of broad merchandise line groupings. While for many purposes information is desired for individual commodities or more detailed merchandise line categories than are shown in this report, reporting in greater detail was not found to be feasible.

APPENDIX A—Continued

In planning the merchandise line inquiries for the 1972 Census of Retail Trade, the Bureau of the Census consulted extensively with trade associations and business firms, both for advice on the information to be provided by the census, and on the reportability of the data on which such information would be based. The amount of detail requested in the census reflected both of these considerations, with reportability, for the most part, being the limiting factor. Twenty-seven broad merchandise lines were devised to account for all the sales and receipts of retail establishments regardless of kind-of-business classification. These lines are identified in the various tables of this report by a merchandise line code ending in "O." In addition to the 27 major lines, additional detail within certain of these major lines was requested on many of the report forms. These additional or specialized lines (identified in the tables by a merchandise line code ending with a digit other than "O"), unlike the major lines, were not uniform, but were adapted to the merchandise line characteristics of an individual kind of business or a group of closely related kinds of business. Thus, while it is possible to compute a total for each of the broad merchandise lines to cover all kinds of retail business, no such totals can be calculated for the detailed (or specialized) lines. Appendix G gives merchandise line descriptions, codes, and the reporting-form number on which each line appears.

LIMITATIONS IN REPORTING SALES BY MERCHANDISE LINES

Even with such a limited breakdown of 27 major lines, it was found that there was tendency on the part of respondents to fail to identify what were minor lines for a particular business and to include the sales of such minor lines with major ones. This deficiency has the effect of understating the number of outlets for individual merchandise lines and to a lesser extent it affects the measurement of the volume of sales of individual lines.

It should be noted that the merchandise line categories by which individual retailers group their sales are not uniform and, therefore, will not always correspond to categories established in a reporting system designed for general use. In addition, because many retailers had little if any recorded information of sales by line of merchandise, it is necessary to recognize that a substantial amount of estimating is involved in the reporting of merchandise lines. Furthermore, there is, of course, no assurance that the pattern for the stores reporting by merchandise lines is representative of those which did not report. However, it was concluded that the effect of individual differences and of the use of approximations would be minimized in summary tabulations by the tendency for individual deviations to be offsetting. On this basis, figures for sales should constitute useful approximations to serve many important current requirements and should be helpful in

measuring important changes occurring over fairly long intervals, such as between successive censuses.

A related problem for a number of large retail firms was the absence of merchandise line records on an individual establishment basis. Some firms had information available only for the group of stores within a warehouse district or some other grouping used by the firm. In such cases it was necessary for the firm to estimate sales for individual stores by using the pattern of sales shown by the entire group of stores.

DIFFERENCES BETWEEN 1967 AND 1972 MERCHANDISE LINES

The 1967 census presented data on 25 broad merchandise lines. For 1972, these merchandise lines have been restructured into 27 categories. The following revisions were made both to present more detailed merchandise line data and to reflect major revisions to the SIC structure:

1. "Toiletries," previously part of "Drugs, proprietaries," has been made a separate category.
2. The 1967 "Appliances" merchandise line has been split into two broad lines for 1972: "Major household appliances" and "Radios, televisions, and musical instruments."
3. The 1967 "Furniture" merchandise line has been split into: "Furniture—sleep equipment" and "Floor coverings."
4. The "Hardware" merchandise line has been split into: "Hardware—electrical supplies" and "Lawn and garden supplies."
5. Two 1967 merchandise lines, "Farm equipment" and "Farm supplies," have been eliminated. This reflects the revised SIC structure for 1972 in which farm equipment dealers; hay, grain, and feed stores; and farm supply stores, not elsewhere classified, are now classified in wholesale trade.

Expansion—The merchandise line data reflect the sales experience of retail establishments with payroll only. Moreover, reporting was incomplete or inadequate for establishments representing about 19.2 percent of the total dollar volume of these establishments; however, merchandise line data have been projected to sales of all retail establishments with payroll on the premise that the experience of those establishments not reporting merchandise line data paralleled those establishments in the same kinds of business which reported this information.

To project the merchandise line data for nonreporters, an expansion factor was developed at the United States level for each kind of business and applied to reported data at each geographical level for which data are presented.

Coverage—Table 3 presents coverage ranges for each kind of business shown. Coverage ranges for each kind of business indicate the degree to which sales were acceptably reported by

APPENDIX A—Continued

broad merchandise lines. Coverage was determined by dividing the total sales of establishments reporting acceptable data by broad lines (whether or not additional detail lines were reported) by the total sales of all establishments classified in that particular kind of business.

In addition, coverage ranges are presented for selected broad merchandise lines where additional detail merchandise line information within the broad line was requested indicating the degree to which detail lines within that broad line were acceptably reported. The table presents each broad line under which additional detail line reporting was requested and shows the degree to which businesses which reported the specified broad merchandise line gave the additional detail breakdown. The coverage range was computed by summing the detail line sales and dividing the result by the corresponding broad line sales. The resulting ratio was then multiplied by the coverage range for the kind of business to put both ratios on the same base. Coverage ranges used for both kinds of business and broad lines are:

- A = 90 percent or more reporting.
- B = 80 to 89 percent reporting.
- C = 70 to 79 percent reporting.
- D = 60 to 69 percent reporting.
- E = Less than 60 percent reporting.

Except when precluded by the census disclosure rules (see Introduction), data have been shown for individual kinds of business when the dollar volume of reporting coverage was sufficient to account for 60 percent or more of sales (ranges A through D) on a weighted basis (after weighting of merchandise line sales of the sample of "small employers" described in the Census Coverage and Methodology section above).

As noted above, the fact that an establishment has reported its sales by broad merchandise line does not always mean that all lines handled by the establishment are reported separately. There are a few instances for which this limitation is particularly apparent. For example, as a result of the trade custom of grouping paper products and soaps with dry groceries, a number of food stores apparently included amounts for such products with line 100 instead of in lines 831 and 832.

Description of the Tables—Table 1 provides data for each kind of business and gives for each merchandise line: The number of establishments handling the line and their sales of the line; the percentage of total sales of the specific kind of business accounted for by each of the lines carried; and in addition, for each line, the degree of specialization in that line. Specialization is derived by computing the percentage which sales of that line are of total sales of those establishments which handled that particular line.

Information on detailed (as contrasted with broad) merchandise lines appears only in connection with the specific

kind of business to which the lines apply. Data relating to the detailed lines are indented below the applicable broad line in the tabulations.

In 1972, data for merchandise lines which represent less than 0.05 percent of sales in a specific kind of business and data for merchandise lines which were not shown separately to avoid disclosure have been combined into a "Miscellaneous merchandise" line within the applicable merchandise line grouping. Due to rounding procedures used, detail may not add to the totals in the "Sales" column and in the "All establishments" percentage column.

Table 2 provides summary data by broad merchandise line, including counts of establishments handling the line and total sales of the line. Also provided within each broad merchandise line are counts of establishments carrying the line and the amount and percent of the line sold by various kinds of retail businesses. Data for kinds of business accounting for less than 0.05 percent of the specific broad line sales and data for kinds of business which were not shown separately to avoid disclosure are included on the line, "Retailers not listed above."

Table 3 presents information on sales coverage of establishments reporting merchandise lines which can be used as a guideline to evaluate the validity of the merchandise line tabulations.

A table which provides and estimate of the relative sampling variability (coefficient of variation) for each merchandise line, by kind of business, at the United States level is available from the Chief, Business Division, Bureau of the Census, Washington, D.C., 20233.

Merchandise line data for States, standard metropolitan statistical areas (SMSA's), and the area within the State outside any SMSA will be made available for purchase on microfiche or enlarged prints and can be obtained from the Library, Bureau of the Census, Washington, D.C. 20233.

KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, as defined in major groups 52 through 59 of the 1972 edition of the SIC manual, includes establishments engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. Exceptions to this general rule are made necessary by trade practices. For example, lumber yards and paint, glass, and wallpaper stores are included in retail trade if they sell to the general public, even if a higher proportion of their sales is made to contractors. Also, establishments engaged in selling products to the general public from displayed merchandise, such as typewriters, stationery, or gasoline are classified in retail trade even though such products may not be used for personal or household consumption. However, establishments that sell exclusively to business establishments, institutional

APPENDIX A—Continued

and industrial users, or contractors are classified in wholesale trade.

Additional important characteristics of retail trade establishments are that they are usually fixed places of business; they are engaged in activities to attract the general public to buy; they buy or receive merchandise as well as sell; they may process their products, but such processing is incidental or subordinate to selling; and they are considered as retail in the trade. Not all of these characteristics need be present, and some are modified by trade practice.

Establishments covered by the census were assigned kind-of-business classifications in accordance with the industry classifications defined in the 1972 edition of the SIC manual. However, because in some instances a more detailed classification is required for census purposes than is defined in the SIC manual, additional kinds of business have been identified within SIC categories. In general, retail establishments are classified according to the principal lines of commodities sold (groceries, hardware, etc.), or the usual trade designation (drug store, cigar store, etc.).

Kind-of-business classifications are not interchangeable with commodity classifications. Most businesses sell several kinds of commodities. The kind-of-business code assigned generally reflects either the individual commodity or the commodity group which is the primary source of the establishment's receipts, or some mixture of commodities which characterizes the establishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the "food group" classification excludes stores selling food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as "food stores" some of their receipts may be derived from the sale of nonfood products. (Some indication of the extent to which various broad groups of commodities, or "merchandise lines," are characteristic of different kinds of business is available in chapter 4.)

The basis for a kind-of-business classification is described above in the section under "Method of Classifying Kinds of Business." Descriptions of 1972 Census of Retail Trade kind-of-business classifications follow.

BUILDING MATERIALS, HARDWARE, GARDEN SUPPLY, AND MOBILE HOME DEALERS (SIC Major Group 52)

This major group includes retail establishments primarily engaged in selling lumber and other building materials; paint, glass, and wallpaper; hardware; nursery stock; lawn and garden supplies; and mobile homes.

It includes lumber and other building materials dealers and paint, glass, and wallpaper stores selling to the general public, even if sales to contractors account for a larger proportion of total sales. These establishments are known as "retail" in the trade. Establishments primarily selling these products but not selling to the general public are classified in wholesale trade.

Establishments primarily selling plumbing, heating, and air-conditioning equipment; electrical supplies; and farm equipment, which were classified in major group 52 in the 1967 census, are classified in wholesale trade. Retail nurseries and lawn and garden supply stores, part of major group 59 in 1967, and mobile home dealers, part of major group 55 in 1967, are classified here.

Lumber and Other Building Materials Dealers (SIC 521)—Establishments engaged in selling primarily lumber, or lumber and a general line of building materials, to the general public. While these establishments may also sell to contractors, they are known as "retail" in the trade. The lumber which they sell may include rough and dressed lumber, flooring, molding, doors, sashes, frames, and other millwork. The building materials may include roofing, siding, shingles, wallboard, paint, brick, tile, cement, sand, gravel, and other building materials and supplies. Hardware is often an important line of retail lumber and building materials dealers. Establishments which do no selling to the general public, or those which are known in the trade as "wholesale," are classified in SIC 503.

Paint, Glass, and Wallpaper Stores (SIC 523)—Establishments engaged in selling primarily paint, glass, and wallpaper, or any combination of these lines, to the general public. While these establishments may also sell to contractors, they are known as "retail" in the trade. Establishments which do no selling to the general public or are known in the trade as "wholesale" are classified in wholesale trade.

Hardware Stores (SIC 525)—Establishments primarily selling a number of basic hardware lines such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials, no one of which accounts for 50 percent or more of the sales of the establishments.

Retail Nurseries, Lawn and Garden Supply Stores (SIC 526)—Establishments primarily engaged in selling trees, shrubs, other plants, seeds, bulbs, mulches, soil conditioners, fertilizers, pesticides, garden tools, and other garden supplies to the general public. These establishments primarily sell products purchased from others, but may sell some plants which they grow themselves. Establishments primarily engaged in the growing of plants are classified in SIC major group 01.

APPENDIX A—Continued

Mobile Home Dealers (SIC 527)—Establishments primarily engaged in the retail sale of new and used mobile homes, including parts and accessories. Establishments primarily selling travel trailers and campers are classified in SIC 5561.

GENERAL MERCHANDISE GROUP STORES (SIC Major Group 53)

This major group includes retail stores which sell a number of lines of merchandise, such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. The stores included in this group are known as department stores, variety stores, general merchandise stores, general stores, etc. Establishments primarily engaged in selling used general merchandise are classified in SIC 593, and those selling general merchandise by mail, vending machine, or direct selling, in SIC 596.

Nonstore retailers (mail-order houses, merchandising machine operators, and direct-selling establishments), dry goods stores, and sewing and needlework stores, previously classified in SIC major group 53, are classified in major group 59 in the 1972 census.

Department Stores (SIC 531)—Establishments normally employing 25 people or more, having sales of apparel and softgoods combined amounting to 20 percent or more of total sales, and engaged in selling each of the following lines of merchandise:

1. *Furniture, home furnishings, appliances, radio and TV sets.*
2. *A general line of apparel for the family.*
3. *Household linens and dry goods.*

To qualify as a department store, sales of each of the lines listed above must be less than 80 percent of total sales. An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the merchandise lines listed above exceed the maximum percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

Variety Stores (SIC 533)—Establishments primarily engaged in the retail sale of a variety of merchandise in the low and popular price ranges. Sales usually are made on a cash-and-carry basis with the open selling method of display and customer selection of merchandise. These stores generally do not carry a complete line of merchandise, are not departmentalized, do not carry their own charge service, and do not deliver merchandise.

Miscellaneous General Merchandise Stores (SIC 539)—Establishments primarily engaged in the retail sale of a general line

of apparel, dry goods, hardware, homewares or home furnishings, groceries, and other lines in limited amounts. Stores selling commodities covered in the definition for department stores, but normally having less than 25 employees, and stores usually known as country general stores are included here.

Also included in this classification are establishments whose sales of apparel or of furniture and home furnishings exceed half of their total sales providing that sales of the smaller of the two lines in combination with dry goods and household linens accounts for 20 percent or more of total sales.

FOOD STORES (SIC Major Group 54)

This major group includes retail stores primarily engaged in selling food for home preparation and consumption. Establishments primarily engaged in selling prepared foods and drinks for consumption on the premises are classified in major group 58, and stores primarily engaged in selling packaged beers and liquors in SIC 5921.

In the 1972 census, data for freezer and locker meat provisioners and meat markets are shown separately. In the 1967 census, data for these two kinds of business were combined into a single classification, "Meat markets." Data for egg and poultry dealers, shown separately in the 1967 census, have been combined with data for "Other miscellaneous food stores" in the 1972 census.

Grocery Stores (SIC 541)—Establishments primarily selling (1) a wide variety of canned or frozen foods, such as vegetables, fruits, and soups; (2) dry groceries, either packaged or in bulk, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour, and crackers; and (3) other processed food and nonedible grocery items. In addition, these establishments often sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats.

Establishments commonly known as supermarkets, food stores, and delicatessens are included in this classification if receipts from sales of groceries and food items for off-premise preparation and consumption are 50 percent or more of total sales.

Freezer and Locker Meat Provisioners (SIC 5422)—Establishments primarily engaged in the retail sale, on a bulk basis, of meat for freezer storage. Also included are establishments primarily providing home freezer plans. Food locker plants primarily engaged in renting locker space for the storage of food products for individual households are classified in SIC 4222.

Meat Markets (SIC 5423 pt.)—Establishments primarily selling fresh, frozen, or cured meats. Frequently these establishments also sell poultry, fish, dairy products, eggs, and some groceries.

APPENDIX A—Continued

Establishments included in this category reported that meat, fish, and poultry sales accounted for 80 percent or more of total sales, and that fresh and/or frozen meat accounted for 50 percent or more of their total receipts.

Fish (Seafood) Markets (SIC 5423 pt.)—Establishments primarily selling fresh or frozen fish, oysters and other shellfish, and other seafoods. These establishments frequently sell other food items commonly used in preparing seafood or consumed with seafoods. Establishments included in this category reported that sales of fish and other seafood accounted for 50 percent or more of total receipts.

Fruit Stores and Vegetable Markets (SIC 543)—Establishments primarily selling fresh fruits and fresh vegetables. These establishments frequently carry a limited line of grocery items. Roadside stands of farmers selling only their own produce are not included in the census.

Candy, Nut, and Confectionery Stores (SIC 544)—Establishments primarily selling candy, nuts, sweetmeats, and other confections. A soda fountain or lunch counter is frequently operated in these stores.

Dairy Products Stores (SIC 545)—Establishments primarily engaged in the retail sale of dairy products, such as milk, cream, butter, cheese, and related products, to over-the-counter customers. Ice cream and frozen custard stands are classified in SIC 5812 and establishments buying ice cream and similar products and selling them from trucks or wagons are classified in SIC 5963. Establishments primarily engaged in processing and distributing milk and cream are classified in SIC 202.

Retail Bakeries—Baking and Selling (SIC 5462)—Establishments primarily engaged in the retail sale of bakery products, such as bread, cakes, and pies, and which prepare some or all of the products sold on the premises. Establishments manufacturing bakery products and selling them chiefly through house-to-house routes are classified in manufacturing (SIC 2051). Establishments purchasing bakery products and selling house-to-house are classified in SIC 5963.

Retail Bakeries—Selling Only (SIC 5463)—Establishments primarily engaged in the retail sale of bakery products, such as bread, cakes, and pies, none of which are produced on the premises.

Other Miscellaneous Food Stores (SIC 549)—Establishments primarily engaged in the retail sale of specialized foods, not elsewhere classified, such as eggs and poultry, health foods, spices, herbs, coffee, and tea. The poultry stores may sell live

poultry, slaughter and clean poultry for their own account and sell dressed fowls, or sell fowl cleaned and dressed by others.

AUTOMOTIVE DEALERS AND GASOLINE SERVICE STATIONS (SIC Major Group 55)

This major group includes retail dealers selling new and used automobiles, boats, recreational and utility trailers, and motorcycles; those selling new automobile parts and accessories; and gasoline service stations selling gasoline and lubricating oils. This group includes establishments dealing in used automobiles exclusively, but not establishments dealing exclusively in used parts (SIC 5931). Automobile repair shops maintained by the establishments engaged in the sale of new automobiles are also included.

Automotive distributors, the greater part of whose sales are to dealers or to institutional or industrial users, are classified in wholesale trade. Mobile home dealers previously classified in major group 55 are classified in major group 52 in the 1972 census.

Dealers With Domestic Car Franchise Only (SIC 5511 pt.)—Establishments having only a domestic car franchise and primarily engaged in the sale of new automobiles or new and used automobiles. These establishments usually have a service and parts department.

Dealers With Imported Car Franchise Only (SIC 5511 pt.)—Establishments having only an imported car franchise and primarily engaged in the sale of new automobiles or new and used automobiles. These establishments usually have a service and parts department.

Dealers With Domestic and Imported Car Franchises (SIC 5511 pt.)—Establishments with both domestic and imported car franchises and primarily engaged in the sale of new automobiles or new and used automobiles. These establishments usually have a service and parts department.

Used Car Dealers (SIC 552)—Establishments primarily selling used cars and not holding a franchise for the sale of new passenger cars.

Tire, Battery, and Accessory Dealers (SIC 553 pt.)—Establishments primarily selling new automobile tires, batteries, automobile seat covers, and other automotive parts and accessories. Establishments primarily selling used merchandise in these categories are classified as "Used merchandise stores" (SIC 5931).

Other Auto and Home Supply Stores (SIC 553 pt.)—Establishments engaged in selling a combination of lines of merchandise

APPENDIX A—Continued

including tires, batteries and accessories, household appliances, radios and television sets, sporting and recreational goods, toys, housewares, and hardware, no one of which accounts for over 49 percent of total sales.

Gasoline Service Stations (SIC 554)—Establishments primarily selling gasoline and automotive lubricants. Usually these establishments also sell tires, batteries, and accessories, and perform minor repair work and services. Establishments called garages but deriving more than half of their receipts from the sale of gasoline and automotive lubricants are included.

Boat Dealers (SIC 555)—Establishments primarily engaged in the retail sale of new and used motorboats and other watercraft, including parts, accessories, marine supplies, and outboard motors.

Recreational and Utility Trailer Dealers (SIC 556)—Establishments primarily engaged in the retail sale of new and used recreational trailers, campers (pickup coaches), utility trailers, and other trailers for passenger automobiles, and motor homes, including parts and accessories. Establishments primarily engaged in the retail sale of mobile homes are classified in SIC 5271.

Motorcycle Dealers (SIC 557)—Establishments primarily engaged in the retail sale of new and used motorcycles and motor scooters, including parts and accessories.

Automotive Dealers, Not Elsewhere Classified (SIC 559)—Establishments primarily engaged in the retail sale of new and used automotive vehicles, such as snowmobiles, dunebuggies, and go-carts, and new equipment and supplies, not elsewhere classified.

APPAREL AND ACCESSORY STORES (SIC Major Group 56)

Establishments in this major group are primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included in this group are establishments which meet the criteria for "Department stores" (SIC 5311) or "Miscellaneous general merchandise stores" (SIC 5399) even though most of their receipts are from the sale of apparel and apparel accessories.

Data for custom tailors, shown separately in the 1967 census, have been combined with data for miscellaneous apparel and accessory stores in the 1972 census.

Men's and Boys' Clothing and Furnishings Stores (SIC 561)—Establishments primarily selling men's and boys' ready-to-wear clothing and furnishings. Establishments are included

in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales, and (2) receipts from sales of all men's and boys' apparel are three or more times the receipts from sales of all women's and girls' apparel.

Women's Ready-to-Wear Stores (SIC 562)—Establishments primarily selling women's and girls' ready-to-wear apparel. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales, (2) sales of all women's and girls' apparel are three or more times the sales of all men's and boys' apparel, and (3) sales of dresses, coats and suits, and furs are two or more times greater than the sales of millinery, hosiery, underwear, blouses, handbags, and other apparel and accessories.

Millinery Stores (SIC 563 pt.)—Establishments primarily selling women's hats, including those making hats on the premises to custom order.

Corset and Lingerie Stores (SIC 563 pt.)—Establishments primarily selling women's foundation garments, lingerie, negligees, robes, and other intimate wear. Establishments primarily engaged in selling foundation garments made or fitted to custom order also are included.

Other Women's Accessory and Specialty Stores (SIC 563 pt.)—Establishments primarily selling a specialized line of women's and girls' apparel, such as sportswear, beachwear, blouses, and hosiery. Included in this industry are establishments which meet the definition for women's ready-to-wear stores except that receipts from sales of dresses, coats, suits, and furs are not twice as much or more than sales of other women's and girls' apparel. Establishments which sell men's and boys' apparel in combination with women's and girls' apparel may be classified as "Family clothing stores" (SIC 5651) under conditions specified in the definition for that kind of business.

Children's and Infants' Wear Stores (SIC 564)—Establishments primarily engaged in the retail sale of children's and infants' clothing, furnishings, and accessories. Such establishments may specialize in either children's or infants' wear or they may sell a combination of children's and infants' wear.

Family Clothing Stores (SIC 565)—Establishments primarily selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of their total sales, (2) sales of all women's and girls' apparel items are

APPENDIX A—Continued

not more than three times the sales of all men's and boys' apparel items, and (3) sales of men's and boys' apparel items are not more than three times the sales of all women's and girls' apparel items.

Men's Shoe Stores (SIC 566 pt.)—Establishments primarily selling men's and boys' shoes and other footwear. Establishments selling women's and girls' and/or children's and infants' footwear are included in this classification if sales of men's and boys' footwear are more than three times the combined sales of women's, girls', children's, and infants' footwear.

Women's Shoe Stores (SIC 566 pt.)—Establishments primarily selling women's and girls' shoes and other footwear. Establishments selling men's and boys' and/or children's and infants' footwear are included in this classification if sales of women's and girls' footwear are more than three times the combined sales of men's, boys', children's, and infants' footwear.

Children's and Juveniles' Shoe Stores (SIC 566 pt.)—Establishments primarily selling children's and infants' shoes and other footwear. Establishments selling men's, boys', and/or women's and girls' footwear are included in this classification if sales of children's and infants' footwear are more than three times the combined sales of men's, boys', women's, and girls' footwear.

Family Shoe Stores (SIC 566 pt.)—Establishments primarily selling both men's and women's shoes and other footwear, and may or may not sell children's shoes. Accessories such as hosiery, gloves, and handbags also are frequently sold. Establishments are included in this classification if (1) sales of any one of the three major groupings (men's and boys' footwear, women's and girls' footwear, and children's and infants' footwear) are not more than three times the sales of the other two groups combined, and (2) if children's and infants' footwear are not carried, sales of the larger of the two remaining groups are not more than three times the sales of the smaller.

Furriers and Fur Shops (SIC 568)—Retail establishments primarily engaged in selling fur coats and other fur apparel, including fur apparel made in the same establishment to custom order. Establishments primarily engaged in fur repair and storage and which also may sell a minor amount of fur apparel are classified in SIC 7219.

Miscellaneous Apparel and Accessory Stores (SIC 569)—Establishments primarily engaged in the retail sale of specialized lines of apparel and accessories not elsewhere classified, such as uniforms, bathing suits, raincoats, riding apparel, sports apparel, umbrellas, wigs, and toupees. This industry also includes custom tailors primarily engaged in making and selling men's and women's clothing (except fur apparel, SIC 5681) to individual order.

FURNITURE, HOME FURNISHINGS, AND EQUIPMENT STORES (SIC Major Group 57)

This major group includes retail stores selling goods used for furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances. Establishments selling electrical and gas appliances are included in this group only if the major part of their sales consists of articles for home use. Dealers primarily engaged in selling antique and secondhand furniture are classified in SIC 593. Stores furnishing interior decorator service are classified according to the merchandise handled.

In the 1972 census, data for china, glassware, and metalware stores and miscellaneous home furnishings stores have been combined into a single kind of business classification, "Miscellaneous home furnishings stores." In the 1967 census, data for these two kinds of business were shown separately.

Furniture Stores (SIC 5712)—Establishments primarily selling household furniture, beds, mattresses, springs, and other sleep equipment. Also included in this classification are establishments selling household appliances, phonographs, radio and TV sets, and floor coverings provided the receipts from sales of furniture and sleep equipment exceed those from sales of other merchandise.

Floor Covering Stores (SIC 5713)—Establishments primarily engaged in the retail sale of floor coverings and related products. Establishments included in this industry, which sometimes may perform installation service, are to be distinguished from contractors primarily engaged in installing floor coverings, which are classified in SIC 1752.

Drapery, Curtain, and Upholstery Stores (SIC 5714)—Establishments primarily selling draperies, curtains, slipcovers, and upholstery materials. Establishments primarily selling custom-made draperies and slipcovers for household use also are included. Establishments primarily engaged in reupholstering or repairing furniture are included in the census of selected service industries.

Miscellaneous Home Furnishing Stores (SIC 5719)—Establishments primarily engaged in the retail sale of miscellaneous home furnishings, such as china, glassware, and metalware for kitchen and table use, bedding and linen, brooms, brushes, lamps and shades, mirrors and pictures, venetian blinds, and window shades. Establishments primarily engaged in the retail sale of miscellaneous home furnishings by house-to-house canvass or by party-plan merchandising are classified in SIC 5963.

Household Appliance Stores (SIC 572)—Establishments primarily engaged in the retail sale of electric and gas refrigerators.

APPENDIX A—Continued

erators, stoves, and other household appliances, such as electric irons, percolators, hot plates, and vacuum cleaners. Many such stores also sell radio and television sets. Retail stores operated by public utility companies and primarily engaged in the sale of electric and gas appliances for household use are classified here.

Radio and Television Stores (SIC 5732)—Establishments primarily engaged in the retail sale and installation of radios, televisions sets, record players, high fidelity (hi-fi), and sound reproducing equipment. Such establishments also may sell additional lines, such as household appliances, musical instruments, or records. Radio and television repair and installation shops are classified in SIC 7622.

Record Shops (SIC 5733 pt.)—Establishments primarily selling phonograph records and albums. Related merchandise also frequently is sold in these stores.

Musical Instrument Stores (SIC 5733 pt.)—Establishments primarily selling musical instruments, such as organs, pianos, horns, stringed instruments, and percussion instruments. Other musical supplies also may be sold in these stores.

EATING AND DRINKING PLACES (SIC Major Group 58)

This major group includes retail establishments selling prepared foods and drinks for consumption on the premises, and also lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption. Restaurants, lunch counters, and drinking places operated as a subordinate service facility by other establishments are not included in this industry unless they are operated as leased departments by outside operators. Thus, restaurants and lunch counters operated by hotels are classified in major group 70; those operated by department stores are classified in major group 53.

In the 1972 census, data for restaurants and lunchrooms and social caterers are shown separately at the national level. In the 1967 census, data for these two kinds of business were combined into a single classification, "Restaurants, lunchrooms, and caterers." Data for ice cream and frozen custard stands, which were combined with other refreshment places in the 1967 census, are shown separately in the 1972 census at the national level.

Restaurants and Lunchrooms (SIC 5812 pt.)—Establishments engaged in serving prepared food and beverages selected by the patron from a full menu. Waiter or waitress service is provided and the establishment has seating facilities for at least 15 patrons. These establishments often serve alcoholic beverages.

Establishments in which sales of alcoholic beverages for consumption on the premises exceed receipts from sales of prepared food and nonalcoholic beverages are classified as "Drinking places" (SIC 5813).

Social Caterers (SIC 5812 pt.)—Establishments primarily engaged in serving prepared food and beverages for weddings, banquets, etc., at a hall or similar place rather than at a fixed business location. Such establishments also may arrange for some entertainment but this should be a minor part of the business.

Cafeterias (SIC 5812 pt.)—Establishments engaged in serving prepared food and beverages primarily through the use of a cafeteria line where the customer serves himself from displayed selections. Some limited waiter or waitress service may be provided. Table and/or booth seating facilities are usually provided.

Refreshment Places (SIC 5812 pt.)—Establishments primarily selling limited lines of refreshments and prepared food items. Included in this group are establishments which prepare refreshment items such as pizza, barbecued chicken, and hamburgers for consumption either on or near the premises or for "take-home" consumption.

Contract Feeding (SIC 5812 pt.)—Establishments primarily engaged in providing food service under contract to another company; hospital; or governmental, penal, or educational institution. The facilities and personnel of these establishments may be provided by the contracting company, institution, etc.; however, the management is always supplied by the contractor.

Ice Cream and Frozen Custard Stands (SIC 5812 pt.)—Establishments primarily engaged in selling ice cream, frozen custard, or other frozen ices for consumption either on or near the premises. "Take-home" packages also may be provided for ice cream sold in bulk.

Drinking Places (SIC 5813)—Establishments primarily engaged in the retail sale of drinks, such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on the premises. The sale of food frequently accounts for a substantial portion of the receipts of these establishments.

MISCELLANEOUS RETAIL STORES (SIC Major Group 59)

This major group includes retail establishments not elsewhere classified. Nonstore retailers; dry goods stores; and sewing, needlework, and piece goods stores, which were classified in

APPENDIX A—Continued

major group 53 in the 1967 census, are classified in major group 59 in the 1972 census. Hay, grain, feed, and other farm supply stores, and retail nurseries, lawn and garden supply stores, previously classified in major group 59, are classified in wholesale trade and major group 52, respectively, in the 1972 census.

Drug Stores (SIC 591 pt.)—Establishments engaged in the retail sale of prescription drugs and patent medicines, and which may carry a number of related lines such as cosmetics, toiletries, tobacco, and novelty merchandise, and which may operate a soda fountain or lunch counter.

These stores are included on the basis of their usual trade designation rather than on the more strict interpretation of commodities handled.

Proprietary Stores (SIC 591 pt.)—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

Liquor Stores (SIC 592)—Establishments primarily selling packaged alcoholic beverages, such as ale, beer, wine, and whiskey, for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included.

Used Merchandise Stores (SIC 593)—This industry includes stores primarily engaged in the retail sale of used merchandise, antiques, and secondhand goods such as clothing and shoes; furniture; books and rare manuscripts; automobile parts, accessories, tires, batteries; musical instruments; office furniture; phonographs and phonograph records; and store fixtures and equipment. This industry also includes pawnshops. Dealers primarily engaged in selling used motor vehicles, trailers, and boats are classified in major group 55; used mobile homes in SIC 5271; and establishments primarily engaged in automobile repair in SIC 753. Scrap, waste, and junk dealers are classified in SIC 5093.

General Line Sporting Goods Stores (SIC 5941 pt.)—Establishments primarily selling a general line of sporting goods and equipment for hunting, camping, fishing, skiing, riding, tennis, golf, and other sports; and gymnasium and playground equipment.

Specialty Line Sporting Goods Stores (SIC 5941 pt.)—Establishments primarily selling a specialty line of sporting goods and equipment for only one of the lines listed in "General line sporting goods stores."

Book Stores (SIC 5942)—Establishments primarily selling new books and periodicals. Stationery and related items may also be sold. Book clubs (not engaged in publishing) primarily sell-

ing new books through the mail are included in "Mail-order houses" (SIC 5961).

Stationery Stores (SIC 5943)—Establishments primarily engaged in the retail sale of stationery, such as paper and paper products (including printing and engraving), post cards, novelties, and school and office supplies. Stores specializing in the sale of artists' supplies are classified in SIC 5999.

Jewelry Stores (SIC 5944)—Establishments primarily engaged in the retail sale of any combination of the lines of jewelry, such as diamonds and other precious stones; rings, bracelets, and brooches; sterling and plated silverware; and watches and clocks. Stores primarily engaged in watch and jewelry repair are classified in SIC 7631.

Hobby, Toy, and Game Shops (SIC 5945)—Establishments primarily engaged in the retail sale of toys, games, and hobby kits and supplies. Establishments primarily engaged in selling artists' supplies, or collectors' items, such as coins, stamps, and autographs, are classified in SIC 5999.

Camera and Photographic Supply Stores (SIC 5946)—Establishments primarily engaged in the retail sale of cameras, film, and other photographic supplies and equipment. Establishments primarily engaged in finishing films are classified in SIC 7395.

Gift, Novelty, and Souvenir Shops (SIC 5947)—Establishments primarily engaged in the retail sale of combined lines of gifts and novelty merchandise, souvenirs, and miscellaneous small art goods such as greeting cards and holiday decorations.

Luggage and Leather Goods Stores (SIC 5948)—Establishments primarily engaged in the retail sale of luggage, trunks, and leather goods.

Sewing, Needlework, and Piece Goods Stores (SIC 5949)—Establishments primarily engaged in the retail sale of sewing supplies, fabrics, patterns, and other needlework accessories.

Mail-Order Houses (SIC 5961)—Establishments primarily selling merchandise as a result of orders received by mail. Customers are made aware of goods available for sale through catalogs, mailing pieces, advertisements in newspapers and magazines, and advertising on radio and television.

Departmentalized retail stores normally with 25 employees or more, operated by mail-order houses and selling a general line of merchandise, are classified in SIC 5311. Retail stores normally with less than 25 employees, operated by mail-order houses and selling a general line of merchandise, are classified in SIC 5399.

APPENDIX A—Continued

In some tabulations, mail-order houses are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type establishments.

These subclassifications are department store merchandise; other general merchandise; food; apparel and accessories; furniture, home furnishings, and equipment; books and stationery; and other mail-order houses.

Automatic Merchandising Machine Operators (SIC 5962)—Establishments primarily engaged in the retail sale of products by means of automatic merchandising units (vending machines) which are generally located on the premises of other businesses. The industry does not include operation of coin-operated service machines, such as washers and dryers (SIC 7215), music machines and amusement and game machines (SIC 7993), and lockers and scales (SIC 7299).

Since a large number of automatic merchandising machine operations are conducted in conjunction with the operation of manufacturing plants and of wholesale and other establishments not classified in retail trade, data for "retail" automatic merchandising machine operators should not be interpreted as providing a measure of total sales through automatic merchandising machines. The data for "retail" automatic merchandising machine operators also do not include sales made through automatic merchandising machines owned by establishments classified in other kinds of retail trade. In some tabulations, automatic merchandising machine operators are divided into subclassifications on the basis of the merchandise sold in the machines on location at the end of the census year.

These subclassifications are candy, nut, and confectionery; milk and ice cream; other beverages; tobacco products; and other merchandising machine operators.

Direct Selling Establishments (SIC 5963)—Establishments primarily selling merchandise by house-to-house canvass, by party plan, by telephone, or from a truck. When the canvassers are employed by the organization which they represent, the "establishment" is the location from which they operate. However, many of the important organizations whose products are distributed in this manner utilize self-employed canvassers as their representatives. Each such canvasser is counted as an "establishment" in this report. As a result, the "number of establishments" count is considerably larger than would be the case if the count were based on the primary organizations whose products are being distributed. Establishments in operation throughout the census year were included if their annual sales were \$2,500 or more; establishments in operation during part of the census year were included only if their sales were at an annual rate of \$2,500 or more. Consequently, the "number of establishments" in this category should not be interpreted as being a count of the total number of self-employed canvassers.

In some tabulations, direct selling organizations are divided into subclassifications on the basis of the merchandise they sell.

These subclassifications are building materials, hardware, and garden supplies; general merchandise; milk; other foods; apparel and accessories; furniture, home furnishings, and equipment; mobile food service; books and stationery; and other direct selling.

Fuel and Ice Dealers, Not Elsewhere Classified (SIC 5982)—Establishments primarily engaged in the retail sale of coal, coke, charcoal, wood, ice, or any combination of these lines. Establishments primarily selling fuel oil are classified in SIC 5983, and those primarily selling bottled gas in SIC 5984.

Fuel Oil Dealers (SIC 5983)—Establishments primarily engaged in the retail sale of fuel oil. Establishments primarily selling fuel oil burners are classified in SIC 5074, dealers primarily engaged in installing and servicing fuel oil burners, in SIC 1711, and fuel oil burner repair service only, in SIC 7699.

Liquefied Petroleum Gas Dealers (SIC 5984)—Establishments primarily engaged in the retail sale of liquefied petroleum (LP) gas (bottled gas or in bulk).

Florists (SIC 5992)—Establishments primarily engaged in the retail sale of cut flowers and growing plants. Stores primarily engaged in selling seeds, bulbs, and nursery stock are classified in SIC 5261, and greenhouses and nurseries primarily engaged in growing, in SIC 0181.

Cigar Stores and Stands (SIC 5993)—Establishments primarily engaged in the retail sale of cigars, cigarettes, tobacco, and smokers' supplies. Many of the establishments included in this classification are operated as concessions in places of amusement, railway stations, airports, and other public places.

News Dealers and Newsstands (SIC 5994)—Establishments primarily engaged in the retail sale of newspapers, magazines, and other periodicals. Home delivery of newspapers by other than printers or publishers is classified in SIC 5963.

Miscellaneous Retail Stores, Not Elsewhere Classified (SIC 5999)—Establishments primarily engaged in the retail sale of specialized lines of merchandise, not elsewhere classified.

This industry also includes establishments primarily engaged in selling a general line of their own or consigned merchandise at retail on an auction basis. Establishments primarily engaged in auctioning tangible personal property of others on a fee basis are classified in SIC 7399.

In some tabulations, "Miscellaneous retail stores" are divided into subclassifications on the basis of the merchandise they sell. These subclassifications are pet shops, typewriter stores, optical goods stores, and other retail stores.

APPENDIX B. Changes in Retail Trade Kind-of-Business Classifications in 1972

Based on revisions to the Standard Industrial Classification Manual, definitions of some kinds of business were changed in 1972. The significant changes in kind-of-business classification from 1967 to 1972 are listed below. For industries other than those listed, the kind-of-business definitions are the same as in 1967, or contain only minor revisions affecting the classification of few, if any, establishments.

1972 Census		1967 Census	
SIC code	Title	SIC code	Short or descriptive title ¹
5063	Electrical apparatus and equipment ²	5241	Electrical supply stores.
5074	Plumbing and hydronic heating supplies ²	5221	Plumbing and heating equipment dealers.
5075	Warm air heating and air conditioning ²		
5083	Farm machinery and equipment ²	5252	Farm equipment dealers.
5191 pt.	Farm supplies ²	5962	Hay, grain, and feed stores.
		5969 pt.	Farm supply stores, n.e.c..
5261	Retail nurseries and garden stores	5969 pt.	Garden supply stores.
5271	Mobile home dealers	5592 pt.	Household trailer dealers.
5399	Miscellaneous general merchandise stores	5399 pt.	Miscellaneous general merchandise stores.
5422	Freezer and locker meat provisioners	5421	Meat and fish (seafood) markets.
5423	Meat and fish (seafood) markets		
5551	Boat dealers ³	5591	Boat dealers.
5561	Recreational and utility trailer dealers	5592 pt.	Household trailer dealers.

APPENDIX C. Retail Trade General Questions

Form Approved: O.M.B. No. 41-571116

<p>U.S. DEPARTMENT OF COMMERCE SOCIAL AND ECONOMIC STATISTICS ADMINISTRATION BUREAU OF THE CENSUS</p> <p>1972 CENSUS OF BUSINESS</p>	<p>NOTICE - Response to this inquiry is required by law (Title 13, U.S. Code). By the same law, your report to the Census Bureau is confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.</p>							
<p>Please complete this form and RETURN TO</p>	<p>BUREAU OF THE CENSUS 1201 East Tenth Street Jeffersonville, Indiana 47130</p>							
<p>Important - Please read</p> <p>If the first digit in your Census File Number (imprinted in the address box) is a zero (0) and you operated more than one establishment (location) under the same Employer Identification Number in 1972, consolidate data for all such locations. In item 1, enter the location of your MAIN establishment. In item 6d, provide information separately for each location, INCLUDING your main establishment.</p> <p>PLEASE READ THE ACCOMPANYING INSTRUCTIONS</p>								
<p style="text-align: right;">In correspondence pertaining to this report, please refer to this Census File Number</p> <p style="text-align: right;">Employer Identification Number</p>								
<p>Please correct errors in name, address and ZIP code. ENTER street and number if not shown.</p>								
<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 25%;">Census use only</td> <td style="width: 25%;">010</td> <td style="width: 25%;">011</td> <td style="width: 25%;">012</td> <td style="width: 25%;">013</td> </tr> </table>			Census use only	010	011	012	013	
Census use only	010	011	012	013				
<p>Item 1 - PHYSICAL LOCATION OF BUSINESS ESTABLISHMENT</p> <p>■ The purpose of this inquiry is to determine the place (city, county, etc.) where your business is actually located (which may differ from the mailing address) so that data can be tabulated in the correct geographic area.</p> <p>a. Is this business establishment PHYSICALLY located at the address shown in the address box of this form?</p> <p><input type="checkbox"/> YES - Answer b and c <input type="checkbox"/> NO - Enter PHYSICAL location Also answer b and c</p> <p style="text-align: right;">Place (City or village, etc.) State ZIP code</p> <p>b. Is this business establishment located WITHIN the LEGAL boundaries of the city, village, etc., which you indicate is its PHYSICAL location?</p> <p>1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO</p> <p>c. In what county is this business establishment PHYSICALLY located?</p> <p style="text-align: right;">County</p>								
<p>Item 2 - EMPLOYER IDENTIFICATION NUMBER</p> <p>a. Is the Employer Identification (E.I.) Number printed in the upper right of the address box the SAME as that used for this establishment on your latest 1972 Employer's Quarterly Federal Tax Return, Treasury Form 941?</p> <p><input type="checkbox"/> YES <input type="checkbox"/> NO → Enter current E.I. number (9 digits)</p> <p>b. Did this establishment also use any other Employer Identification (E.I.) Number during 1972?</p> <p><input type="checkbox"/> YES → Enter E.I. number or numbers (9 digits) <input type="checkbox"/> NO</p>								
<p>Item 3 - PERIOD OPERATED IN 1972</p> <p>a. Was this establishment in business at the end of 1972?</p> <p>■ If establishment was inactive during December 1972 due to seasonal or part-time operations, answer "Yes" unless it was not owned by you at the end of the year.</p> <p>1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO</p> <p>b. How many months during 1972 did you own this establishment?</p> <p style="text-align: right;">Number of months 031</p>								
<p>Important - Please read</p> <p>Sales and payroll should be reported as illustrated. Please be careful to enter your figures in the correct columns. See example below.</p> <p>EXAMPLE:</p> <p>If the figure is \$1,125,628.28:</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <tr> <td style="padding: 2px;">Mil- lions (000)</td> <td style="padding: 2px;">Thou- sands (000)</td> <td style="padding: 2px;">Dol- lars (000)</td> </tr> <tr> <td style="text-align: center;">1</td> <td style="text-align: center;">125</td> <td style="text-align: center;">628</td> </tr> </table> <p>PREFERRED method →</p> <p>Acceptable method →</p>			Mil- lions (000)	Thou- sands (000)	Dol- lars (000)	1	125	628

APPENDIX C—Continued

Item 6 — COMPANY ORGANIZATION

a. Is the first digit of your Census File Number (imprinted in the address box) a zero (0)?

1 ☐ YES — Answer b, c, and d

2 ☐ NO — SKIP to item 7

b. Is this company owned or controlled by another company? 1 ☐ YES → 2 ☐ NO

Enter the company name and address (street name and number, city, State, ZIP code) and E.I. number. If more space is needed to list companies, use the "Remarks" section.

Owning or controlling company

E.I. No. (9 digits)

c. Does this company own or control any other company or companies? 1 ☐ YES → 2 ☐ NO

Owning or controlled company

E.I. No. (9 digits)

d. YOUR BUSINESS LOCATIONS

Number of locations

If more than one location, complete (2) below.

(1) At how many locations did you operate this business during 1972? (Include all selling or service locations and any other facilities such as warehouses, administrative offices, etc.) . . .

(2) List each location (including main location). If more space is needed, attach separate sheet providing same information required below.

Census use only	Physical address of business location (Street name and number, city, State, ZIP code) (a)	Census use only	Kind of business at this location (b)	Sales and receipts (c)			Annual payroll (d)			Number of employees * (e)
				Mil.	Thou.	Dol.	Mil.	Thou.	Dol.	
070	1.	071		072			073			074
070	2.	071		072			073			074
070	3.	071		072			073			074
TOTAL (Totals should equal entries in items 4a, 5a, and 5c) →										

APPENDIX D. Special Inquiries From Selected Reporting Forms From the 1972 Census of Retail Trade

The following special inquiries appear on the specified retail report forms as part of item 11.

GASOLINE SERVICE STATIONS, OTHER AUTOMOTIVE

(Items d, e, and f appear on Forms CB-55A, CB-55B, CB-55C, and CB-55D. Items b and c appear on Form CB-55D only)

	347
b. Does this establishment offer self-service sale of gasoline?	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
	348
c. Does this establishment have automatic car wash equipment on the premises?	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
	Number
d. Number of gallons of gasoline sold during 1972	328
e. Number of gallons of other automotive fuels (including diesel) sold during 1972	329
f. How many gasoline pumps are operated for sale of gasoline to customers?	340

TIRES

(Form CB-55B)

Number of new tires sold by this establishment during 1972	Number 342
(1) Automobile	343
(2) Truck and bus (including industrial, off-the-road, farm tractor tires)	
Number of retreaded tires sold by this establishment or retreaded for others during 1972	344
(1) Automobile	345
(2) Truck and bus (including industrial, off-the-road, farm tractor tires)	

RECREATIONAL VEHICLES

(Form CB-55C)

Report the number of units sold during 1972	Number	
	New	Used
(1) Travel trailers	297	298
(2) Collapsible camping trailers	299	300
(3) Utility and other trailers	301	302
(4) Pickup coaches (for mounting on trucks)	303	304
(5) Van conversions and caps	305	306
(6) Motorized homes	307	308
(7) Mobile homes	309	310

MOBILE HOMES

(Form CB-52C)

	Number	
Report the number of mobile homes sold during 1972 (include only mobile homes which are 35 feet or more in length)	New	Used
	285	286
(1) 10 feet wide		
	287	288
(2) 12 feet wide		
	289	290
(3) 14 feet wide		
	291	292
(4) Doublewide		
	293	294
(5) Expandables		
	295	296
(6) Other mobile homes		
(7) Total (Sum of lines (1) through (6)) →		

FUELS

(Form CB-59E)

	Gallons
LP gas bulk storage (shell) capacity at this establishment December 31, 1972	405
Gallon sales of fuel oil and LP gas in 1972	406
(1) LP gas	
	407
(2) Kerosene	
	408
(3) Light fuel oil (distillate type – Nos. 1, 2, and 4)	
	409
(4) Heavy fuel oil (residual type – Nos. 5 and 6)	
(5) Other (Specify)	410
	411
Does this establishment sell bottled LP gas?	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
	415
Did this establishment have any coal inventories December 31, 1972?	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
If "YES" report inventories for –	Short tons
	416
(1) Bituminous and lignite	
	417
(2) Pennsylvania anthracite	

APPENDIX D—Continued

DRUG STORES

(Form CB-59A)

b. Were prescriptions filled in 1972 in this establishment?	396	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
c. Enter total number of prescriptions filled in 1972 in this establishment (include new and refilled prescriptions)	397	Number
d. How many prescriptions reported in part c above were refills only?	398	
e. Did this establishment fill any prescriptions in 1972 which were paid for by "third parties" including Government agencies, Blue Cross, Blue Shield, insurance companies, and others?	399	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
f. If "YES" to e above, what percent of all prescriptions filled in 1972 in this establishment were paid for by "third parties"?	400	Report in whole percents %
g. Enter the number of pharmacists working in this establishment during the pay period including March 12, 1972 (include any proprietors or family members who are registered pharmacists)	401	Number
h. Are any part-time pharmacists included in part g above (i.e., pharmacists who normally work less than 35 hours per week)?	402	1 <input type="checkbox"/> YES 2 <input type="checkbox"/> NO
i. If "YES," how many part-time pharmacists are included?	403	Number

FLOOR SPACE

(Forms CB-52B, CB-53A, CB-53B, CB-54, CB-55B, CB-56, CB-57A, CB-57B, CB-59A, CB-59B, CB-59C, CB-59D, CB-59F, and CB-59G)

APPENDIX F. Standard Metropolitan Statistical Areas

(Titles and definitions of the two standard consolidated areas and the 263 standard metropolitan statistical areas in the United States established by the Office of Management and Budget as of August 15, 1973)

Chicago, IL—Northwestern Indiana Standard Consolidated Area	Consists of Chicago, IL, SMSA, and Gary-Hammond-East Chicago, IN, SMSA
New York, NY—Northeastern New Jersey Standard Consolidated Area	Consists of New York, NY-NJ, SMSA; Nassau-Suffolk, NY, SMSA; Newark, NJ, SMSA; Jersey City, NJ, SMSA; Paterson-Clifton-Passaic, NJ, SMSA; and New Brunswick-Perth Amboy-Sayreville, NJ, SMSA
Abilene, TX	Consists of Callahan, Jones, and Taylor Counties, TX
Akron, OH	Consists of Portage and Summit Counties, OH
Albany, GA	Consists of Dougherty and Lee Counties, GA
Albany-Schenectady-Troy, NY	Consists of Albany, Montgomery, Rensselaer, Saratoga, and Schenectady Counties, NY
Albuquerque, NM	Consists of Bernalillo and Sandoval Counties, NM
Alexandria, LA	Consists of Grant and Rapides Parishes, LA
Allentown-Bethlehem-Easton, PA-NJ	Consists of Carbon, Lehigh, and Northampton Counties, PA, and Warren County, NJ
Altoona, PA	Coextensive with Blair County, PA
Amarillo, TX	Consists of Potter and Randall Counties, TX
Anaheim-Santa Ana-Garden Grove, CA	Coextensive with Orange County, CA
Anchorage, AK	Coextensive with Anchorage Census Division, AK
Anderson, IN	Coextensive with Madison County, IN
Ann Arbor, MI	Coextensive with Washtenaw County, MI
Appleton-Oshkosh, WI	Consists of Calumet, Outagamie, and Winnebago Counties, WI
Asheville, NC	Consists of Buncombe and Madison Counties, NC
Atlanta, GA	Consists of Butts, Cherokee, Clayton, Cobb, De Kalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Newton, Paulding, Rockdale, and Walton Counties, GA
Atlantic City, NJ	Coextensive with Atlantic County, NJ
Augusta, GA-SC	Consists of Columbia and Richmond Counties, GA, and Aiken County, SC
Austin, TX	Consists of Hays and Travis Counties, TX
Bakersfield, CA	Coextensive with Kern County, CA
Baltimore, MD	Consists of Baltimore city, and Anne Arundel, Baltimore, Carroll, Harford, and Howard Counties, MD
Baton Rouge, LA	Consists of Ascension, East Baton Rouge, Livingston, and West Baton Rouge Parishes, LA
Battle Creek, MI	Consists of Barry and Calhoun Counties, MI
Bay City, MI	Coextensive with Bay County, MI
Beaumont-Port Arthur-Orange, TX	Consists of Hardin, Jefferson, and Orange Counties, TX
Billings, MT	Coextensive with Yellowstone County, MT
Biloxi-Gulfport, MS	Consists of Hancock, Harrison, and Stone Counties, MS
Binghamton, NY-PA	Consists of Broome and Tioga Counties, NY, and Susquehanna County, PA
Birmingham, AL	Consists of Jefferson, St. Clair, Shelby, and Walker Counties, AL
Bloomington-Normal, IL	Coextensive with McLean County, IL
Boise City, ID	Coextensive with Ada County, ID
Boston, MA	Consists of Beverly, Lynn, Peabody, and Salem cities, and Boxford, Danvers, Hamilton, Lynnfield, Manchester, Marblehead, Middleton, Nahant, Saugus, Swampscott, Topsfield, and Wenham towns in Essex County; Cambridge, Everett, Malden, Medford, Melrose, Newton, Somerville, Waltham, and Woburn cities, and Acton, Arlington, Ashland, Bedford, Belmont, Boxborough, Burlington, Carlisle, Concord, Framingham, Holliston, Lexington, Lincoln, Natick, North Reading, Reading, Sherborn, Stoneham, Sudbury, Wakefield, Watertown, Wayland, Weston, Wilmington, and Winchester towns in Middlesex County; Quincy city, and Bellingham, Braintree, Brookline, Canton, Cohasset, Dedham, Dover, Foxborough, Franklin, Holbrook, Medfield, Medway, Millis, Milton, Needham, Norfolk, Norwood, Randolph, Sharon, Stoughton, Walpole, Wellesley, Westwood, Weymouth, and Wrentham towns in Norfolk County; Abington, Duxbury, Hanover, Hanson, Hingham, Hull, Kingston, Marshfield, Norwell, Pembroke, Rockland, Scituate towns in Plymouth County; and Boston, Chelsea, and Revere cities, and Winthrop town in Suffolk County, MA

APPENDIX F—Continued

Bridgeport, CT	Consists of Bridgeport and Shelton cities, and Easton, Fairfield, Monroe, Stratford, and Trumbull towns in Fairfield County; and Derby and Milford cities in New Haven County, CT
Bristol, CT	Consists of Bristol city and Burlington town in Hartford County, and Plymouth town in Litchfield County, CT
Brockton, MA	Consists of Easton town in Bristol County; Avon town in Norfolk County; and Brockton city, and Bridgewater, East Bridgewater, Halifax, West Bridgewater, and Whitman towns in Plymouth County, MA
Brownsville-Harlingen-San Benito, TX	Coextensive with Cameron County, TX
Bryan-College Station, TX	Coextensive with Brazos County, TX
Buffalo, NY	Consists of Erie and Niagara Counties, NY
Burlington, NC	Coextensive with Alamance County, NC
Canton, OH	Consists of Carroll and Stark Counties, OH
Cedar Rapids, IA	Coextensive with Linn County, IA
Champaign-Urbana-Rantoul, IL	Coextensive with Champaign County, IL
Charleston, SC	Consists of Berkeley, Charleston, and Dorchester Counties, SC
Charleston, WV	Consists of Kanawha and Putnam Counties, WV
Charlotte-Gastonia, NC	Consists of Gaston, Mecklenburg, and Union Counties, NC
Chattanooga, TN-GA	Consists of Hamilton, Marion, and Sequatchie Counties, TN, and Catoosa, Dade, and Walker Counties, GA
Chicago, IL	Consists of Cook, Du Page, Kane, Lake, McHenry, and Will Counties, IL
Cincinnati, OH-KY-IN	Consists of Clermont, Hamilton, and Warren Counties, OH; Boone, Campbell, and Kenton Counties, KY; and Dearborn County, IN
Cleveland, OH	Consists of Cuyahoga, Geauga, Lake, and Medina Counties, OH
Colorado Springs, CO	Consists of El Paso and Teller Counties, CO
Columbia, MO	Coextensive with Boone County, MO
Columbia, SC	Consists of Lexington and Richland Counties, SC
Columbus, GA-AL	Consists of Columbus city, and Chattahoochee County, GA, and Russell County, AL
Columbus, OH	Consists of Delaware, Fairfield, Franklin, Madison, and Pickaway Counties, OH
Corpus Christi, TX	Consists of Nueces and San Patricio Counties, TX
Dallas-Fort Worth, TX	Consists of Collin, Dallas, Denton, Ellis, Hood, Johnson, Kaufman, Parker, Rockwall, Tarrant, and Wise Counties, TX
Danbury, CT	Consists of Danbury city, and Bethel, Brookfield, New Fairfield, Newtown, and Redding towns in Fairfield County; and New Milford town in Litchfield County, CT
Davenport-Rock Island-Moline, IA-IL	Consists of Scott County, IA, and Henry and Rock Island Counties, IL
Dayton, OH	Consists of Greene, Miami, Montgomery, and Preble Counties, OH
Daytona Beach, FL	Coextensive with Volusia County, FL
Decatur, IL	Coextensive with Macon County, IL
Denver-Boulder, CO	Consists of Adams, Arapahoe, Boulder, Denver, Douglas, Gilpin, and Jefferson Counties, CO
Des Moines, IA	Consists of Polk and Warren Counties, IA
Detroit, MI	Consists of Lapeer, Livingston, Macomb, Oakland, St. Clair, and Wayne Counties, MI
Dubuque, IA	Coextensive with Dubuque County, IA
Duluth-Superior, MN-WI	Consists of St. Louis County, MN, and Douglas County, WI
El Paso, TX	Coextensive with El Paso County, TX
Elmira, NY	Coextensive with Chemung County, NY
Erie, PA	Coextensive with Erie County, PA
Eugene-Springfield, OR	Coextensive with Lane County, OR
Evansville, IN-KY	Consists of Gibson, Posey, Vanderburgh, and Warrick Counties, IN, and Henderson County, KY
Fall River, MA-RI	Consists of Fall River city, and Dighton, Somerset, Swansea, and Westport towns in Bristol County, MA; and Little Compton, Portsmouth, and Tiverton towns in Newport County, RI
Fargo-Moorhead, ND-MN	Consists of Cass County, ND, and Clay County MN
Fayetteville, NC	Coextensive with Cumberland County, NC

APPENDIX F—Continued

Fayetteville-Springdale, AR	Consists of Benton and Washington Counties, AR
Fitchburg-Leominster, MA	Consists of Shirley and Townsend towns in Middlesex County; and Fitchburg and Leominster cities and Lunenburg and Westminster towns in Worcester County, MA
Flint, MI	Consists of Genesee and Shiawassee Counties, MI
Florence, AL	Consists of Colbert and Lauderdale Counties, AL
Fort Lauderdale-Hollywood, FL	Coextensive with Broward County, FL
Fort Myers, FL	Coextensive with Lee County, FL
Fort Smith, AR-OK	Consists of Crawford and Sebastian Counties, AR, and Le Flore and Sequoyah Counties, OK
Fort Wayne, IN	Consists of Adams, Allen, De Kalb, and Wells Counties, IN
Fresno, CA	Coextensive with Fresno County, CA
Gadsden, AL	Coextensive with Etowah County, AL
Gainesville, FL	Coextensive with Alachua County, FL
Galveston-Texas City, TX	Coextensive with Galveston County, TX
Gary-Hammond-East Chicago, IN	Consists of Lake and Porter Counties, IN
Grand Rapids, MI	Consists of Kent and Ottawa Counties, MI
Great Falls, MT	Coextensive with Cascade County, MT
Green Bay, WI	Coextensive with Brown County, WI
Greensboro-Winston-Salem--High Point, NC ...	Consists of Davidson, Forsyth, Guilford, Randolph, Stokes, and Yadkin Counties, NC
Greenville-Spartanburg, SC	Consists of Greenville, Pickens, and Spartanburg Counties, SC
Hamilton-Middletown, OH	Coextensive with Butler County, OH
Harrisburg, PA	Consists of Cumberland, Dauphin and Perry Counties, PA
Hartford, CT	Consists of Hartford city, and Avon, Bloomfield, Canton, East Granby, East Hartford, East Windsor, Enfield, Farmington, Glastonbury, Granby, Manchester, Marlborough, Newington, Rocky Hill, Simsbury, South Windsor, Suffield, West Hartford, Wethersfield, Windsor, and Windsor Locks towns in Hartford County; New Hartford town in Litchfield County; Cromwell, East Hampton, and Portland towns in Middlesex County; Colchester town in New London County; and Andover, Bolton, Columbia, Coventry, Ellington, Hebron, Stafford, Tolland, Vernon, and Willington towns in Tolland County, CT
Honolulu, HI	Coextensive with Honolulu County, HI
Houston, TX	Consists of Brazoria, Fort Bend, Harris, Liberty, Montgomery, and Waller Counties, TX
Huntington-Ashland, WV-KY-OH	Consists of Cabell and Wayne Counties, WV; Boyd and Greenup Counties, KY; and Lawrence County, OH
Huntsville, AL	Consists of Limestone, Madison, and Marshall Counties, AL
Indianapolis, IN	Consists of Boone, Hamilton, Hancock, Hendricks, Johnson, Marion, Morgan, and Shelby Counties, IN
Jackson, MI	Coextensive with Jackson County, MI
Jackson MS	Consists of Hinds and Rankin Counties, MS
Jacksonville, FL	Consists of Baker, Clay, Duval, Nassau, and St. Johns Counties, FL
Jersey City, NJ	Coextensive with Hudson County, NJ
Johnstown, PA	Consists of Cambria and Somerset Counties, PA
Kalamazoo-Portage, MI	Consists of Kalamazoo and Van Buren Counties, MI
Kansas City, MO.-KS	Consists of Cass, Clay, Jackson, Platte, and Ray Counties, MO, and Johnson and Wyandotte Counties, KS
Kenosha, WI	Coextensive with Kenosha County, WI
Killeen-Temple, TX	Consists of Bell and Coryell Counties, TX
Kingsport-Bristol, TN-VA	Consists of Hawkins and Sullivan Counties, TN, and Bristol city, and Scott and Washington Counties, VA
Knoxville, TN	Consists of Anderson, Blount, Knox, and Union Counties, TN
La Crosse, WI	Coextensive with La Crosse County, WI
Lafayette, LA	Coextensive with Lafayette Parish, LA
Lafayette-West Lafayette, IN	Coextensive with Tippecanoe County, IN
Lake Charles, LA	Coextensive with Calcasieu Parish, LA

APPENDIX F—Continued

Lakeland-Winter Haven, FL	Coextensive with Polk County, FL
Lancaster, PA	Coextensive with Lancaster County, PA
Lansing-East Lansing, MI	Consists of Clinton, Eaton, Ingham, and Ionia Counties, MI
Laredo, TX	Coextensive with Webb County, TX
Las Vegas, NV	Coextensive with Clark County, NV
Lawrence-Haverhill, MA-NH	Consists of Lawrence and Haverhill cities, and Amesbury, Andover, Georgetown, Groveland, Merrimac, Methuen, North Andover, Salisbury, and West Newbury towns in Essex County, MA; and Atkinson, Hampstead, Kingston, Newton, Plaistow, Salem, and Windham towns, in Rockingham County, NH
Lawton, OK	Coextensive with Comanche County, OK
Lewiston-Auburn, ME	Consists of Auburn and Lewiston cities, and Lisbon town in Androscoggin County, ME
Lexington, KY	Consists of Bourbon, Clark, Fayette, Jessamine, Scott, and Woodford Counties, KY
Lima, OH	Consists of Allen, Auglaize, Putnam, and Van Wert Counties, OH
Lincoln, NE	Coextensive with Lancaster County, NE
Little Rock-North Little Rock, AR	Consists of Pulaski and Saline Counties, AR
Long Branch-Asbury Park, NJ	Coextensive with Monmouth County, NJ
Lorain-Elyria, OH	Coextensive with Lorain County, OH
Los Angeles-Long Beach, CA	Coextensive with Los Angeles County, CA
Louisville, KY-IN	Consists of Bullitt, Jefferson, and Oldham Counties, KY, and Clark and Floyd Counties, IN
Lowell, MA-NH	Consists of Lowell city, and Billerica, Chelmsford, Dracut, Tewksbury, Tyngsborough, and Westford towns in Middlesex County, MA; and Pelham town in Hillsborough County, NH
Lubbock, TX	Coextensive with Lubbock County, TX
Lynchburg, VA	Consists of Lynchburg city, and Amherst, Appomattox, and Campbell Counties, VA
Macon, GA	Consists of Bibb, Houston, Jones, and Twiggs Counties, GA
Madison WI	Coextensive with Dane County, WI
Manchester, NH	Consists of Manchester city, and Bedford and Goffstown towns in Hillsborough County; Allenstown, Hooksett, and Pembroke towns in Merrimack County; and Derry and Londonderry towns in Rockingham County, NH
Mansfield, OH	Coextensive with Richland County, OH
